SUMMARY OF PROJECT: Education, Management and Interactive European Live Satellite Television. Intercultural communication in European and Asian contexts.

PERSONAL ACHIEVEMENTS:

An award-winning visual artist, curator, writer, and the founding director of Creatives without Borders. She works in a variety of genres and media. Her mixed media series include Nature's Skin, Bloodlands, Le calm avant la tempet, Chronos and Kairos, and East River Sizzle. Her photography was awarded the Deutsche Börse Artist Residency, and it includes assignments about minority groups in Europe and the Middle East. She has served as portfolio reviewer, mentor, and jury member/chair of art competitions internationally. As expert on board/speaker and photographer, she has travelled from the Black Forest to the Black sea and the Danube Delta. She has worked as a curator on a variety of projects, for example The Spirit of Film, her photography collages, for the British Film Academy, Africa, Europe and America, and Mirror, Mirror on the Wall. Her work has been exhibited internationally, including the Indira Gandhi National Centre for the Arts and IID in Delhi, The National Museum of Ethnography, Slovenia, the National Creativity Centre, Malta, the Roma Summit of Cordoba, Europe House, the British Film Academy, the European Commission.

Her creative practice includes collaborations with composers. Her large-scale glass installation with public engagement about interpreting memory, Tears, Apples and Stones, at the Contemporary Art Centre in Slovakia, featured music by two C4 composers from New York. Her current collaboration with a composer is writing a libretto based on her own play, The Hat, featured by Opera on Tap NY, and reviewed as endlessly clever and funny. Her writing has been published internationally, including open Democracy, Philosophy Now, Prentice Hall Macmillan, Culture Magazine, Times Editions, Logos, OUP.

Here There, Now Then, her project for the Arctic Circle expedition of artists and scientists, has received an Arts Council Award, and it is to be featured at the Royal Institution, the oldest independent science body in the world. Www.ardo.org

SUMMARY OF PROJECT: **In vitro and in vivo evaluation of glass reinforced hydroxyapatite composites for orthopaedics and dental applications**

PERSONAL ACHIEVEMENTS:

From September 2000, became lecturer at the University of Porto, Faculty of Engineering, Department of Materials Science. Her research interest is focused on the development of materials for regenerative medicine, mainly in bone tissue, vascular grafts, scaffolds for nerve tissue regeneration and endodontic sealers. The success of her work resulted in more than 100 publications, and she was named inventor of 2 patents:
José Domingos da Silva Santos, M. A. Lopes, Cláudia M. Botelho; Hydroxyapatite, Biocompatible Glass and Silicon-based Bone Substitute, Production Process and Applications of Therof; PCT/PT2008/000014, WO 2009/126054A1. José Domingos da Silva Santos, M. A. Lopes, M. A. Silva; Hydroxyapatite and Bioglass pellets, production process and applications of thereof, PCT/PT2008/000032, WO 2010/021559. Became a full professor in January 2023 at the University of Porto, Portugal.

ORGANISATION AT TIME OF APPLICATION: Complutense University of Madrid

Spain

HOST ORGANISATION: University of Tokyo

HOST PROFESSOR: Prof. Hiroto Ueda

HOST DEPARTMENT: Dept. of Spanish

CITY: Tokyo COUNTRY: Japan

RESEARCH FIELD: Linguistics and Philology

SUMMARY OF PROJECT: Once an in-dept investigation of the cultural conditionings of the Japanese is done, it will be necessary to find the most suitable E/LE (Spanish as Foreign Language) learning method that best adapts to this particular idiosyncrasy.

PERSONAL ACHIEVEMENTS:

In 2000 awarded "summa cum laude" for Ph.D in Applied Linguistics from Complutense University Madrid. Master in Teaching Spanish as a Foreign Language, Complutense University of Madrid.
Visiting Professor in the University of Tokio during four years (1994-1998). Lecturer for training courses for teachers (Antonio de Nebrija University, King Juan Carlos University, Menéndez Pelayo International University, Cervantes Institute, Sophia Universtiy, Seisen University (Tokyo), Université libre de Bruxelles, Université de Liege). Supervising Professor for Aula Abierta, virtual platform at Antonio de Nebrija University, where she also has developed teaching materials for teaching here.
Director of Master Reports. Professor and Director of training courses for teachers of Spanish as a Foreign Language at Menendez Pelayo International University.
Professor of Studies Abroad Programme of North American universities at the Complutense University of Madrid.
Scholarship by Canon Foundation as Visiting Researcher in the University of Tokio (Japan). Specialised in Spanish as a Foreign Language Teaching, with special attention to the Learning Styles. She is author of publications in journals, books and congresses about this area, Consciousness Raising and about Learning Strategies.
She has been Director of Studies at International Center for Superior Studies in Spanish Language (CIESE-Comillas) (2007-2015) and Director of Master Programme in Teaching Spanish as a Foreign Language, Nowadays, she works as a professor both in the Master Programme and in the Undergraduate Programme and she is head researcher in various research projects at the same institution.

RESEARCH FIELD: Linguistics and Philology

SUMMARY OF PROJECT: Japanese-Korean-Altaic Comparative Historical Linguistics

PERSONAL ACHIEVEMENTS:

01.2009-01.2012: Return grant Belgian federal research policy; Dept. Linguistics,Catholic University Leuven, Belgium ; 01.2010-01.2014 Research project Deutsche Forschungsgemeinschaft, Dept. Orientkunde & Sprachwissenschaft Gutenberg University Mainz, Germany. From 2014 until 2015, Associate Professor (UHD) of Japanese linguistics at the University of Leiden, the Netherlands. From September 2015, Research group leader at W2 professorship level at Max Plank Institute for the Science of Human History in Jena (Germany) . Granted an ERC consolidator's grant for interdisciplinary research. The project is entitled "Millet and beans, language and genes. The dispersal of the Transeurasian languages". The project runs from September 2015 to September 2020. Obtained a habilitation (professorial degree) from the University of Mainz in December 2015 and was appointed Honorary Professor in Mainz in June 2018.

Dr. Joaquim Oliveira

FELLOWSHIP YEAR: 2006

NATIONALITY: Portugal

ORGANISATION AT TIME OF APPLICATION: Minho University

Portugal

HOST ORGANISATION: Ookuma Hospital

HOST PROFESSOR: Prof. Hajime Ohgushi

HOST DEPARTMENT: TERG/RICE, Res. Inst. Cell Engineering

CITY: Amagasaki COUNTRY: Japan

RESEARCH FIELD: Medicine

SUMMARY OF PROJECT: In vitro and in vivo assessment of bone-marrow stromal stem cells seeded in several scaffolds with potential applications in Tissue Engineering; long-term effect of dendrimers on osteoblast differentiation.

PERSONAL ACHIEVEMENTS:

J. Miguel Oliveira BSc, Ph.D. (Portuguese, M, 45 years old) is a Principal Investigator with Habilitation at the 3B's Research Group, member of the PT Government Associate Laboratory ICVS/3B's (https://3bs.uminho.pt/people/94) and Institute 3Bs (I3Bs), University of Minho (Portugal). He is the Vice President of I3Bs, President Elect of the Scientific Council of I3Bs, and Director of Pre-Clinical Research at the FIFA MEDICAL CENTER, Estádio do Dragão, Porto, PT since Feb. 2013. Currently, he is a Lecturer in Doctoral Program in Tissue Engineering, Regenerative Medicine and Stem Cells (TERM&SC) at Uminho, PT (since Dec. 2013). He was also an invited lecturer at the Faculty of Medicine, U. Porto (2013-2019). Over the years he has focused his work on the field of biomaterials for tissue engineering, nanomedicine, stem cells, and cell/drug delivery. He also set up a new research line within the ICVS/3B's on 3D in vitro models for cancer research. As a result of his proficiency, he has published so far more than 400 scientific contributions in scientific journals with the referee. Miguel Oliveira has approved 22 patents (filled & submitted), published 8 books (plus 4 in preparation), 12 special issues/topic collections in scientific journals, and more than 130 book chapters in books with international circulation. He has participated in more than 650 communications in national/international conferences and has been invited/keynote speaker in more than 80 plenary sessions. He has an h-index of 62, i10 of 229 and received more than 14850 citations. He has been awarded several prizes including the prestigious "Investigador FCT 2012 and Investigador FCT 2015" attributed by FCT (Portugal), and Jean Leray Award 2015 from European Society for Biomaterials for Young Scientists for Outstanding Contributions within the field of Biomaterials. He is very active on the elaboration and scientific coordination of several PT and international funded projects. In addition, he is member of the National Ethics Committee for Clinical Trials from Serviço Nacional de Saúde (SNS) (PORTUGAL). He is the Editor-in-chief of

the In vitro Models Journal (Springer Nature). He is one of the Editors of the Book Series on Biomaterials, Bioengineering and Sustainability (Springer). He also integrates the advisory /editorial board of the Journal Bio-Design and Manufacturing, Journal of Materials Science: Materials in Medicine, Materials (MDPI), International Journal of Tissue Engineering, Journal of Composites and Biodegradable Polymers, Journal ISRN Biomaterials, The Journal of Experimental Orthopaedics, Journal "Recent Patents on Corrosion Science", and has several editorial roles in Frontiers. He is referee in more than 50 international journals. In 2020-21, he was listed among the TOP50 worldwide experts in tissue engineering and cartilage by EXPERTSCAPE (https://expertscape.com/ex/tissue+engineering) and has been listed in the World TOP2% most cited researchers (2021 and 2022)

RESEARCH FIELD: other Social Sciences

SUMMARY OF PROJECT: **Sociology of Development, South Asian Studies Unintended consequences of participatory development have been overlooked in the current development literature, despite their potential to explain cleavages among the poor who often take advantage of a project in favour of their self-interest. Part of this neglect is due to its normative assumption of participation which treats the poor as voiceless agents. My research examines some unintended consequences in the course of the collective mobilisation of slum-women by the Self-Employed Women's Association (SEWA) in Ahmedabad, India. The case study illustrates two challenges faced by SEWA: one is local power structures in the slums that were framed around social groupings other than gender. The other is the repercussion among slum-women against SEWA as a result of its short-term intervention at the expense of scaling up its activities. Nevertheless, such anomalies explain that it was SEWA that has inspired their 'capacity to aspire', whereas women in other slums remained silent of the existing patriarchal order.**

PERSONAL ACHIEVEMENTS: Awarded Ph.D in Sociology from Jawaharlal Nehru University, India March 2007. Appointed Assistant Professor at Hitotsubashi University, Graduate School of Social Sciences. Appointed to Assistant Professor at the Office for the Promotion of International Relations at Hitotsubashi from 2010 on 1-year contract.

Dr. **Isabel Mar** **Jiménez Arenas**

FELLOWSHIP YEAR: **2009**

NATIONALITY: **Spain**

ORGANISATION AT TIME OF APPLICATION: **Valencia University**

Spain

HOST ORGANISATION: Tama Art University

HOST PROFESSOR: Prof. Takehiko Kikuchi

HOST DEPARTMENT: Fac. Art and Design/ Dept. Oil Painting

CITY: Tokyo COUNTRY: Japan

RESEARCH FIELD: **Art and Musicology**

SUMMARY OF PROJECT: **Mono no Aware in Japanese art. "The pathos of things" felt in painting as therapeutic praxis.**

PERSONAL ACHIEVEMENTS:

Isabel was born in Santiago de Compostela, Spain. She graduated in Fine Arts from the Polytechnic University of Valencia and obtained a Bachelor's Art Degree at Middlesex University of London where she was Erasmus student. She also became a Doctor in Philosophy and Education at the University of Valencia after doing research on feminist aesthetics. She wrote a thesis about the sculptor Louise Bourgeois within the field of art therapy and feminism.
Right after, thanks to a scholarship of the Japanese government, she attended a master course at Okinawa Kenritsu Geijutsu Daigaku where she studied the techniques of Japanese painting. Later on, while being a Canon Foundation Fellow, she did research about Japanese literature and art at Tama Art University of Tokyo. After this, she was awarded with a Postgraduate Certificate in Teaching Japanese as a Foreign Language by the Institute of International education in London.
Her art teaching experience is related to technical drawing, artistic drawing and painting at private schools and Adult Education centres in Valencia. Besides she has been a teacher of Japanese language at the University of Valencia as well as private tutor. Concerning her art work she has exhibited in Spain, United States, England and Japan. Her professional experience also includes graphic design and illustration among other commissions. For more detailed information please visit www. isabeljimenezart. Es

Dr. **Lucian - Cr** **Pop**

FELLOWSHIP YEAR: **2012**

NATIONALITY: **Romania**

ORGANISATION AT TIME OF APPLICATION: **Babes Bolyai University**

Romania

HOST ORGANISATION: Saitama University

HOST PROFESSOR: Prof. Dr. Masaichi Saito

HOST DEPARTMENT: Grad. Schl. Of Science/ Dept. Chemistry/Masaichi Saito La

CITY: Saitama COUNTRY: Japan

RESEARCH FIELD: **Chemistry and Pharmacy**

SUMMARY OF PROJECT: **Reactions of novel trilithiostannane with trihalides.**

PERSONAL ACHIEVEMENTS:

In 2018, he got a lecturer position at the Faculty Chemistry and Chemical Engineering. In 2014, he was awarded with an Individual Fellowship to work at University of Patras, Department of Chemical Engineering, Greece in the field of "Innovative materials for photoelectrocatalytic/chemical cells" for 14 months. Since 2016. he works as a researcher at Faculty of Chemistry and Chemical Engineering, Cluj Napoca, Romania in the field of "Materials for Environmental Applications" (Designing composite nanoarchitectures for hydrogen production and environmental depollution).

ORGANISATION AT TIME OF APPLICATION: Escuela de Estudios Hispano Americanos Spain

HOST ORGANISATION: Kanagawa University

HOST PROFESSOR: Prof. Yoshiko Nagano

HOST DEPARTMENT: Fac. Human Sciences/Dept. Int. Relations & Asian Studies

CITY: Yokohama COUNTRY: Japan

RESEARCH FIELD: History

SUMMARY OF PROJECT: Spain and Japan relationship in 19th century in the Micronesia area

PERSONAL ACHIEVEMENTS: David Manzano Cosano is an Independent senior researcher at University of Cadiz under the Ramon y Cajal program of the Ministry of Science and Innovation of the Spanish government. He is PhD in Contemporary History (Complutense University of Madrid, 2015), and in Law and Political Sciences (University of Pablo de Olavide, 2023). He held different fellowships in Australia (2011), the Philippines (2012), Japan (2014), Guam (2019), Puerto Rico (2020-2021) and Hawai´I (2024). He is author of several prominent works focused on the role of Spain in the history of the Pacific such as El Imperio español en Oceanía (Almuzara, 2020) or Exploring Iberian Counterpoints in the Eighteenth and Nineteenth-Century Pacific (Routledge, 2024).

NATIONALITY: Spain

ORGANISATION AT TIME OF APPLICATION: University of Jaen

Spain

HOST ORGANISATION: University of Tsukuba

HOST PROFESSOR: Prof. Dr. Yuichi Onda

HOST DEPARTMENT: Fac. Life & Environmental Science/ Dept. Integrative Envir

CITY: Tsukuba COUNTRY: Japan

RESEARCH FIELD: Environmental Studies

SUMMARY OF PROJECT: Numerical modelling of runoff yield and soil remobilization at Fukushima and Tochigi prefectures (Eastern Japan): validation with Fukushima accident derived radiocaesium (134Cs and 137Cs).

PERSONAL ACHIEVEMENTS:

Manuel studies soil and water conservation in agricultural systems: Evaluation of management practices and simulation of scenarios with field data and models. He works at the field, slope and catchment scales and from continuous monitoring of parameters to daily, weekly and yearly estimations. Graduated in Geology in 2002 (Univ. Zaragoza) he started his career at the Univ. Jaume-I studying clay minerals. He did his PhD (FPI fellow) at the EEAD-CSIC (2003-2007) studying soil erosion with predicting models (validation with Cs-137); He did 2 pre-doctoral stays in the USA: Washington State Univ. (cropping simulator) and Boston Univ. (satellite images). His PhD thesis (Summa Cum Laude, Extraordinary Doctorate Award) contributed to 8 SCI articles. His position as postdoc started in 2008 at the IPE-CSIC, studying soil loss in abandoned fields (3 SCI). Between 2009-2010, He studied soil degradation with process-based models and a rainfall simulator in KUL (Poesen's lab., Belgium; 5 SCI). Between 2011 and 2014, he worked as JAEDoc and 'Juan de la Cierva' researcher at the EEAD: He published 10 SCI, developed 2 models (rainfall-runoff, and soil redistribution; software registered) and gained 2 projects as PI. In 2014, He obtained the positive evaluation (ANECA) to become a teacher at any University (Contratado Doctor). In 2015, he had an 8-month postdoctoral contract and a project at the Univ. of Jaen to study runoff, soil and carbon loss in olive groves (2 SCI). In 2015 and 2016, He did 2 postdoctoral stays in Japan (Tsukuba Univ.; Onda's lab.) to study contaminated soils with Cs-137 (2 SCI). Then he was the PI of a 3-year 'Jóvenes Investigadores' project (2015-2018) to assess the impacts of soil erosion in vineyards (EEAD-CSIC; 7 SCI). From 2014 to 2018, he participated in the European COST Action 'Connecteur' to study sediment connectivity (3 SCI); He continues to work on connectivity "using the index that he developed"with colleagues from Spain (UCLM), Portugal (IPB), Italy (U. of Padua), Netherlands (WUR), China (NW A&F U.) and Japan (U. of Tsukuba), being leader on this topic at the international

context. In May 2018, he obtained the Certification of the Program I3 (AEI). Between 2018-19, he taught at the Univ. of La Rioja. Since 2019, he has been participating in the COST Action 'FIRElinks' to study the effect of fire on sediment delivery (3 SCI). In the first half of 2020, he worked as a researcher at Wageningen University & Research (Keesstra's lab.) and wrote 5 SCI. Since 2017, he has been collaborating with Dr. Wu (Northwest A&F Univ., China) to study soil moisture dynamics in grasslands (31 SCI). From November 2020 to August 2024, he worked as Distinguished Researcher at the Universidade da Coruña, studying the effect of ground covers on the hydrological response of the soil in vineyards, including plant vigour (12 SCI). In September 2024, He became Permanent Lecturer (PPL-I3) at the Technological College of Huesca, University of Zaragoza, at the Department of Agricultural and Environmental Sciences. He is currently supervising 3 PhD students. His collaboration with the private sector includes the signature of two collaboration agreements (FADOT Foundation in 2014 and Pagos de Brigante winery in 2021) and one confidentiality agreement (Fábregas winery in 2019). SUMMARY: 207 publications of which 87 are articles in journals of the JCR (leader in 36; 65 in Q1), including 12 articles with IF>7. The mean impact factor in the last 4 years is 6.9. In Scopus: 3031 citations (642 in 2023), h-index: 33. He has been a member of the Editorial Board of 4 SCI journals. PROJECTS: 22, being the PI or Co-PI in 9 (1,000,054 €). He supervised 1 Ph.D. thesis (defended in March 2024), and 2 master's thesis in 2018 and 2021. AS REVIEWER: 20 projects (Spain, Austria, Kazakhstan, Poland), 4 postdoctoral calls and > 150 articles. EVALUATION COMMITTEE: PhD dissertation, TFG and TFM. He has given 18 lectures and participated in > 60 dissemination activities including articles in newspapers, interviews in radio stations and television, the European Night of Researchers, Scientific Photographic Competition, talks to students, etc.
