SECURITY

- System verification at start-up checks for unauthorised modifications for enhanced security
- Syslog functionality provides real time security information which can be analysed by a capable third-party SIEM solution
- Certificate auto enrolment assures that security certifications are up-to-date at all times on the entire fleet
- The HDD Encryption function is now standard on 3rd Edition devices, automatically encrypting data stored on the main unit's HDD
- Choose from device-based or cloud-based authentication without the need for an additional server with uniFLOW Online Express
- Ability to disable functions by user to prevent unauthorised usage
- Secure Print enhances document confidentiality
- Ensure information privacy and security across your network with IPsec, port filtering capabilities, and SSL technology

USER EXPERIENCE

- Intuitive user interface provides a large, responsive colour touchscreen with smart phone-like usability
- Enhanced Home UI increases workflow efficiency by remembering user settings and preferences
- Quiet finishing provides less interruptions to workers, keeping employees productive

- Remote diagnostics and assistance, help reduce costs by minimising downtime and time spent by IT resolving issues
- Hold print jobs, preview them and change print settings at the device, achieving the desired results first time
- Remote and centralised fleet management simplifies IT management of devices and fleets

COMPACT DESIGN:

- Compact console-type body can easily fit next to an office desk
- Simple component layout, such as improved ITB deviation control mechanism, contributes to a more compact size
- Elements of the fixing unit have been made smaller to decrease the unit size
- Fewer installation location constraints allow for optimal fit in office environments

MOBILE CONNECTIVITY:

- Enhanced mobile capabilities support changes in office workflows
- Increased mobile compatibility, with Wi-Fi support as standard and direct printing from devices such as smartphones and tablets
- BLE Function imports the destinations in the address book of a mobile device and sends settings, such as the mail subject and body, to the printer

- The NFC function on mobile devices and the Canon PRINT Business app allows users to print and select printers from their smartphone
- Change the settings of mobile print jobs by accessing print job lists from their device control panel or the remote print release function of Canon PRINT Business
- Supports Mopria*/Google Cloud Print

CLOUD CONNECTIVITY:

- Tight integration with uniFLOW Online Express, a cloud-based output management system providing extensive tracking and reporting capabilities from a central web-based system
- Collaborates with business applications and external systems in the cloud
- Canon's MEAP platform provides process optimisation, by integrating with a range of powerful document, capture and output management solutions such as uniFLOW*

* Not available as standard

imageRUNNER ADVANCE GEN 3 3rd Edition is a range of intuitive multifunction printers that streamline workflow efficiencies, whilst providing maximum security for your business. The Unified Firmware Platform (UFP) ensures that the latest feature upgrades and protection are available, for an enhanced user experience across the entire portfolio.

QUICK FACTS

- **Format:** Colour A4
