Outstanding Cloud Output Management Solution

Canon

imageRUNNER ADVANCE 7500 III series

SECURITY

- Verified system at start process checks are implemented for modifications to the boot code, OS, firmware, and MEAP applications
- Certificate auto enrollment and SIEM system integration also help to keep network printers safe and secure
- Choose from device-based or cloud-based authentication, without the need for an additional server with uniFLOW Online Express
- Secure Print enhances document confidentiality
- Ensure information privacy and security across your network with IPsec, port filtering capabilities, and SSL technology
- Mitigate the risk associated with the governance of sensitive information and data privacy (PII data) with Data Loss Prevention and auditing of prints, copies, scans and faxes with imageWARE Security Audit Manager (iW SAM) Express in combination with uniFLOW

PRODUCTIVITY

- Advanced personalisation enables a unique, personal experience, tailored to meet each user's workflow needs
- Enhanced Home UI with smartphone-like usability allows users to select various settings from a single menu, increasing workflow efficiency
- Motion sensor technology wakes device from sleep mode
- Eco recovery modulates the sleep recovery mode to increase speed
- Convenient Staple-on-demand functionality
- Automatically remove blank pages when scanning
- Scan and convert documents to Searchable PDF, Microsoft® Word, and Microsoft® PowerPoint

- Effortlessly capture paper-based documents with rapid single pass scanning (DADF) and smart media handling capabilities, such as multi-sheet feed detection, for fast digitisation of documents
- Support for industry standards such as Apple Airprint® and Mopria®

INTEGRATION:

- Tight integration with uniFLOW Online Express, a cloud-based output management system providing extensive tracking and reporting capabilities from a central web-based system
- Canon's MEAP platform provides process optimisation, by integrating with a range of powerful document, capture and output management solutions such as uniFLOW
- Canon's device management tools (iWMC) give you a centralised point of control across your entire fleet - upgrade devices, check device status and consumables, turn off devices remotely, capture meter readings and manage address books and printer drivers
- Additional functionality can be integrated through future version upgrades with the Unified Firmware Platform

IMAGE QUALITY:

- Canon V² colour supports an even wider range of colours (colour gamut) than previous models for sharper and more vibrant images
- Laser scanner's red multi laser uses a VCSEL (Vertical Cavity Surface Emitting LASER) as its light source
- 24 multi-beams enable high resolution output at 2,400 dpi
- Stable and high performance from CV toner

- VF (Vertical Flow) and developing cooling enable a more stable supply of toner, and prevent the temperature around the developer unit from rising
- A high transfer ITB is included with the device, increasing toner dispersion and improving the efficiency of transferring toner to paper

PRINT ROOM MANAGEMENT:

- User activity tracking provides visibility of print behaviour
- Apply policies and restrict usage at function level by user
- Designed to achieve maximum uptime with intuitive user maintenance videos and status notifications, helping to keep supplies replenished
- Canon's signature reliability and engine technologies provide high quality output to meet the needs of busy departments
- Minimise waste with default 2-sided printing, secure printing, and the ability to hold print jobs, preview them and change print settings at the device, achieving the desired results at the first time of printing

CLOUD CONNECTIVITY:

- Print management and costs are easily controllable with uniFLOW Online®, our secure cloud-based solution
- uniFLOW Online® integrates with all existing devices, intuitively allowing printing and scanning from anywhere, subject to user authentication
- uniFLOW on premise® helps with fleet management, controlling costs, and allowing flexibility in the workforce

* Not available as standard

imageRUNNER ADVANCE GEN 3 3rd Edition is a range of intuitive multifunction printers that streamline workflow efficiencies, whilst providing maximum security for your business. The Unified Firmware Platform (UFP) ensures that the latest feature upgrades and protection are available, for an enhanced user experience across the entire portfolio.

QUICK FACTS

- **Format:** Colour A3
- **Maximum number of Paper Cassettes:** 7
- **Paper input Capacity:** 9,300 sheets
- **Finishing Capabilities:** Collate, Group, Offset, Staple, Saddle Stitch, Hole Punch (multiple patterns), Trimming, Insertion, Fold (C-/Z-/Half/Double parallel/Accordion-Z fold), Staple-Free Staple, Staple on Demand
- **ADF Capacity:** 300 sheets
- **ADF Type:** Platen and DADF

- **A4 Colour Print Speed Range:** 65 - 80ppm
- **Scan Speed:** 240ipm
- **Print Languages:** UFRII, PCL6, Adobe PostScript 3
- **Optional:** EFI Fiery embedded
- **Print Resolution:** 2,400 x 2,400

- Suitable for high-end office environments where quality of output is an important factor
- Enhanced security features including system verification at start up, and SIEM system integration
- Increase productivity with intuitively designed and customisable Home UI screen
- Consistently vivid (CV) toner helps achieve stunning colour consistency and accuracy across a wide variety of media, even in print intensive environments
- Professional-looking documents with flexible finishing options such as professional punching, folding, document insertion, stapling, and booklet making
- Optional Fiery-based imagePASS-N2 controllers enhance processing, job management, workflow automation, and accurate colour reproduction
- Save on transmission costs by utilising the Fax over IP option
- Options for cost recovery and coin vending integration

TAILORED SOLUTIONS TO MEET EVERY CHALLENGE

CORE

Perform routine office operations safely and with ease, with minimum hardware, embedded software including UFOE and services offering complete device maintenance and support.*

HARDWARE

SOFTWARE

SERVICES

BESPOKE

Choose tailored solutions for any business need by removing print management burdens. Consult with Canon experts to manage your extensive requirements, with bespoke solutions and Managed Services options.

ENHANCED

Boost performance with enhancements such as finishing options and security add-ons e.g. Data Removal Service. Choose solutions to expand cloud capabilities with uniFLOW Online including advanced scanning directly with your Google account.

* Standard services include DMS (Device Management Service) and Break Fix
