imageRUNNER ADVANCE 4500 III series

SECURITY

- Verified system at start process checks are implemented for modifications to the boot code, OS, firmware, and MEAP applications
- Further measures to counter malware and firmware include Certificate auto enrolment and 3rd Party SIEM system integration, to help keep network printers safe and secure
- HDD Encryption function is now standard and automatically encrypts data stored on the main unit's HDD
- Central control of security settings reduces administrator workload
- Choose from device-based or cloud-based authentication without the need for an additional server with uniFLOW Online Express
- Secure Print enhances document confidentiality
- Ensure information privacy and security across your network with IPsec, port filtering capabilities, and SSL technology

USER EXPERIENCE

- Advanced personalisation enables a unique, personal experience tailored to meet each user's workflow needs
- Integrated Home UI enables users to select various settings from a single menu for frequently used functions
- Intuitive user interface provides a large, responsive colour touchscreen with smartphone-like usability
- Motion sensor technology wakes device from sleep mode

- Automatically remove blank pages when scanning
- Scan and convert documents to searchable PDF, Microsoft® Word, and Microsoft® PowerPoint
- Effortless capturing of paper-based documents with rapid single pass scanning (DADF) and smart media handling capabilities such as multi-sheet feed detection, help speed up the process of digitising documents
- Quiet finishing provides less interruptions to workers, keeping employees productive
- Remote diagnostics and assistance help reduce costs by minimising downtime and IT time spent resolving issues

MOBILE CONNECTIVITY:

- Near field communications (NFC) technology is now included for mobile devices
- The Canon PRINT Business application can be used to print and select devices remotely
- Bluetooth Low Energy (BLE) can now be used for many functions, enabling devices to communicate while using very little power
- BLE Function can also import the settings and address book of a mobile device to the printer
- Users can change the settings of print jobs by accessing the Canon PRINT Business mobile application on their smartphone
- Supports Mopria/Google Cloud Print/Windows10

COMPACT DESIGN:

- The device can be installed anywhere, allowing for optimal office arrangement
- The 3rd Edition devices also feature a newly designed flat operation panel, with larger screens and new operations to improve usability
- A compact finisher and optional puncher are stored inside the device to save space

CLOUD CONNECTIVITY:

- Cloud-based uniFLOW Online Express upgrades document and device security
- Installation is faster and easier because information can now be applied from the cloud to the device
- The MDS Cloud dashboard service centralises control for an organised display of collected operational data

imageRUNNER ADVANCE GEN 3 3rd Edition is a range of intuitive multifunction printers that streamline workflow efficiencies, whilst providing maximum security for your business. The Unified Firmware Platform (UFP) ensures that the latest feature upgrades and protection are available, for an enhanced user experience across the entire portfolio.

QUICK FACTS

- **Format:** Mono A3
- **Maximum number of Paper Cassettes:** 5
- **Paper input Capacity:** 6,330 sheets
- **Finishing Capabilities:** Collate, Group, Offset, Staple, Booklet, Hole Punch, Staple-Free Staple, Staple on Demand
- **DADF Capacity:** 150 sheets
- **ADF Type:** Platen and DADF or Platen and RADF

- **A4 B/W Print Speed Range:** 25-51ppm
- **Scan Speed:** 160ipm

- **Print Languages:** UFRII, PCL6
- **Optional:** Adobe PostScript 3
- **Print Resolution:** 1,200 x 1,200

- Suitable for workgroups in a floor standing environment
- Enhanced security features include system verification at start up and Syslog data for 3rd Party SIEM integration
- Automatic Certificate update protects against malware attacks
- Increase productivity with the intuitively designed and customisable Home UI screen
- Automatically create professional-looking booklets and finished documents
- Access the internet and print PDF files through the browser
- Improved mobile connectivity with NFC, BLE and the Canon PRINT Business app
- Utilise the power of the cloud with uniFLOW Online Express

TAILORED SOLUTIONS TO MEET EVERY CHALLENGE

CORE

Perform routine office operations safely and with ease, with minimum hardware, embedded software including UFOE and services offering complete device maintenance and support.*

HARDWARE

SOFTWARE

SERVICES

BESPOKE

Choose tailored solutions for any business need by removing print management burdens. Consult with Canon experts to manage your extensive requirements, with bespoke solutions and Managed Services options.

* Standard services include DMS (Device Management Service) and Break Fix

ENHANCED

Boost performance with enhancements such as finishing options and security add-ons e.g. Data Removal Service. Choose solutions to expand cloud capabilities with uniFLOW Online including advanced scanning directly with your Google account.
