imageRUNNER ADVANCE 6500 III Series

SECURITY

- Combination of Verify system at start up and McAfee Embedded Control Software ensures device functionality is never compromised from the tampering of firmware and applications, all in real-time.
- HDD Encryption function is now standard and automatically encrypts data stored on the main unit's HDD, to help prevent data leaks
- Choose from device-based or cloud-based authentication without the need for an additional server with uniFLOW Online Express
- Secure Print enhances document confidentiality
- Ensure information privacy and security across your network with IPsec, port filtering capabilities, and SSL technology
- Secure mobile printing as standard
- Certificate auto enrollment and SIEM system integration also help to keep network printers safe and secure

PRODUCTIVITY

- Large responsive touchscreen with enhanced Home UI features including remembering previous user profile settings and preferences to create a unique personal experience and meet individual workflow needs
- Ultrasonic sensors enable fast automatic recovery from sleep mode
- Guillotine prevention mechanism makes it easier to remove jammed paper
- Improved reliability of output with a multi-sheet feed detection sensor
- Convenient Staple-on-demand functionality
- Automatically removes blank pages when scanning
- Scan and convert documents to searchable PDF, Microsoft® Word, and Microsoft® PowerPoint
- Speed up the process of digitising documents with rapid single pass scanning (DADF) and smart media handling capabilities such as multi-sheet feed detection
- Support for industry standards such as Apple Airprint® and Mopria®

INTEGRATION:

- 3rd Edition devices integrate seamlessly to existing networks – for example, security authentication fits with customer databases
- Each printer also integrates naturally with Canon PRINT Business and other apps
- Tight integration with uniFLOW Online Express, a cloud-based output management system, providing extensive tracking and reporting capabilities from a central web-based system
- Canon's MEAP platform optimises processes by integrating with a range of powerful document, capture and output management solutions such as uniFLOW
- Canon's device management tools give you a centralised point of control across your entire fleet, upgrade devices, check device status and consumables, turn off devices remotely, capture meter readings, as well as manage address books and printer drivers
- Supports industry and network standards i.e. PCL and Adobe PostScript for seamless integration

USER EXPERIENCE:

- Enhanced Home UI enables users to select various settings from a single menu
- 10.1-inch touch panel utilises flick, pinch, and drag-and-drop capabilities

IMAGE QUALITY:

- Integrated gamma correction function and grey brightness/contrast adjustments improve operability of density adjustment settings
- An 8-beam laser unit featuring precise spot imaging
- Toner is supplied quickly and evenly to the drum to ensure optimal image quality
- Twin sleeve enables fast and stable printing with minimal streaking, spills, and mottling
- pO toner expresses solid blacks more uniformly, and halftones more smoothly
- High-accuracy image segmentation technology precisely classifies text and image pixels of a scanned image
- Automatic Gradation Adjustment digitally adjusts toner density for precise dot placement

COST MANAGEMENT:

- 'Remaining days' are shown in user interfaces, so it's easy to schedule maintenance
- Technology designed to reduce total cost of print
- User activity tracking provides visibility of print behaviour
- Apply policies and restrict usage at function level by user
- Remote diagnostics and assistance help reduce costs by minimising downtime and time spent by IT resolving issues
- Remote and centralised fleet management simplifies IT management of devices and fleets

CLOUD CONNECTIVITY:

- 3rd Edition devices can now hold print jobs and pass to other machines for printing
- Increased administrator control via the MDS Cloud dashboard service
- Set Wi-Fi for direct connection using default iOS camera app or CPB camera feature

imageRUNNER ADVANCE GEN 3 3rd Edition is a range of intuitive multifunction printers that streamline workflow efficiencies, whilst providing maximum security for your business. The Unified Firmware Platform (UFP) ensures that the latest feature upgrades and protection are available, for an enhanced user experience across the entire portfolio.

QUICK FACTS

- **Format:** Mono A3
- **Maximum number of Paper Cassettes:** 5
- **Paper input Capacity:** 7,700 sheets
- **Finishing Capabilities:** Collate, Group, Offset, Staple, Saddle Stitch, Hole Puncher, Pro Puncher, Insertion, C & Z folding, Staple-Free Staple, Staple On Demand, Trimmer, Inner Trimmer
- **ADF Capacity:** 300 sheets
- **ADF Type:** Platen and DADF

- **A4 Mono Print Speed Range:** 55 - 75ppm
- **Scan Speed:** 240ipm

- **Print Languages:** UFRII, PCL6
- **Optional:** Adobe PostScript 3, EFI Fiery external server

- Suitable for large workgroups or departments in a floor standing environment
- Enhanced security features include Verify system at start up, Syslog data for 3rd Party SIEM integration and McAfee Embedded Control Software
- Automatic Certificate update protects against malware attacks
- Create professional-looking reports, booklets, newsletters, manuals, proposals, and contracts with flexible finishing options such as professional punching, folding, document insertion, stapling and booklet making
- Enhanced Home UI streamlines user experience and boosts productivity
- Optional Fiery-based imagePASS-Y3 controllers enhance processing, job management, workflow automation and accurate colour reproduction
- Access the internet and print PDF files through the browser
- Outstanding output speed of up to 75ppm in black and white
- Fusing technologies, pO toner, and innovative sleep mode features help lower overall energy consumption

TAILORED SOLUTIONS TO MEET EVERY CHALLENGE

CORE

Perform routine office operations safely and with ease, with minimum hardware, embedded software including UFOE and services offering complete device maintenance and support.

HARDWARE

SERVICES

SOFTWARE

ENHANCED

Boost performance with enhancements such as finishing options and security add-ons e.g. Data Removal Service. Choose solutions to expand cloud capabilities with uniFLOW Online including advanced scanning directly with your Google account.

BESPOKE

Choose tailored solutions for any business need by removing print management burdens. Consult with Canon experts to manage your extensive requirements, with bespoke solutions and Managed Services options.
