Outstanding Cloud Output Management Solution

imageRUNNER ADVANCE 8500 III Series

PRODUCTIVITY:

- Fast, reliable print speeds of up to 105 ppm in black and white
- Increase productivity with the intuitively designed and customisable Home UI screen
- Improved storage features for document reusability and document management link to external systems
- An ultrasonic motion sensor enables fast, automatic recovery from sleep mode
- Preventions for mixing multi-sheet feeding paper with the output improves output reliability
- Vast range of finishing equipment such as productive Staple and Booklet finisher for booklets up to 25 sheets and optional booklet trimmer with large conveyer belt capacity
- Convenient Staple-on-demand functionality
- Short first copy time

IMAGE QUALITY:

- pO toner reproduces images and characters faithfully and accurately
- Automatic gradation adjustment and auto calibration create rich tones
- Improved operability of density adjustment settings balances brightness and contrast
- 8-beam laser unit uses small laser spot diameter for better consistency and reproduction of thin lines
- Twin Sleeve supplies the toner quickly and evenly to the drum to ensure optimal image quality

- Improved default setting achieves a smoother gradation for beautiful monochrome printing
- A transfer belt accurately and uniformly transfers toner to the paper for high quality images
- High-accuracy image segmentation technology accurately classifies text and image pixels of a scanned image

SECURITY:

- Prevent unauthorised distribution of sensitive information through an array of standard and optional document security features
- Combination of Verify system at start up and McAfee Embedded Control Software ensures device functionality is never compromised from the tampering of firmware and applications, all in real-time.
- Certificate auto enrolment and SIEM system support also help to keep network printers safe and secure
- All security settings can be customised to meet customers' policies
- Ensure information privacy and security across your network with IPsec, port filtering capabilities, and SSL technology

INTEGRATION:

- Tight integration with uniFLOW Online Express, a cloud-based output management system providing extensive tracking and reporting capabilities from a central web-based system
- Canon's MEAP platform provides process optimisation, by integrating with a range of powerful document, capture and

- output management solutions
- Canon's device management tools provide a centralised point of control across your entire fleet
- Supports industry and network standards i.e. PCL and Adobe PostScript for seamless integration

PRINT ROOM MANAGEMENT:

- Technology is designed to reduce the total cost of print
- User activity tracking provides visibility of print behaviour
- Apply policies and restrict usage at function level by user
- Remote diagnostics and assistance, help reduce costs by minimising downtime and time spent by IT resolving issues
- Designed to achieve maximum uptime with intuitive user maintenance videos and status notifications, to help keep supplies replenished

CLOUD CONNECTIVITY:

- Print management and costs are easily controllable with uniFLOW*, Canon's secure cloud-based solution
- uniFLOW* integrates with all existing devices, intuitively allowing printing and scanning from anywhere, subject to user authentication
- uniFLOW on premise* helps with fleet management, controlling costs, and allowing flexibility in the workforce

* Not available as standard

imageRUNNER ADVANCE GEN 3 3rd Edition is a range of intuitive multifunction printers that streamline workflow efficiencies, whilst providing maximum security for your business. The Unified Firmware Platform (UFP) ensures that the latest feature upgrades and protection are available, for an enhanced user experience across the entire portfolio.

QUICK FACTS

- **Format:** Mono cutsheet printing of A4, A3, SRA3 and custom sizes

- **Maximum number of Paper Cassettes:** 5

- **Paper input Capacity:** 7,700 sheets

- **Finishing Capabilities:** Collate, Group, Offset, Staple, Saddle Stitch, Hole Punch (multiple patterns), Trimming, Insertion, Fold (C-/Z-/Half/Double parallel/Accordion-Z fold), Staple-Free Staple, Staple on Demand

- **ADF Capacity:** 300 sheets

- **ADF Type:** Platen and DADF

- **A4 Mono Print Speed Range:** 85 - 105ppm
- **Scan Speed:** 240ipm

- **Print Languages:** UFR II
- **Optional:** PCL6, Adobe PostScript 3, EFI Fiery external server
- **Print Resolution:** 1,200 x 1,200

- Suitable for demanding corporate or light production environments
- Produces fast print speeds of up to 105 ppm in black and white
- Flexible media handling capabilities enable you to choose from numerous paper sources and use heavy media up to 256 gsm
- Extensive paper supply of up to 7,700 sheets
- Create professional-looking reports, booklets, newsletters, manuals, proposals, and contracts with flexible finishing options such as professional punching, folding, document insertion, stapling and booklet making
- Optional Fiery-based imagePASS-Y3 controllers enhance processing, job management and workflow automation
- Fusing technologies, pO toner, and innovative sleep mode features help lower overall energy consumption

TAILORED SOLUTIONS TO MEET EVERY CHALLENGE

CORE

Perform routine office and print room operations safely and with ease, with minimum hardware, embedded software and services offering complete device maintenance and support.
