Canon

imageRUNNER ADVANCE 525/615/715 III series

PRODUCTIVITY

- Advanced customisation enables a personalised experience for each user's workflow needs
- Workflow efficiency is further improved by the addition of the timeline feature to remember previous user settings
- Motion sensor technology wakes device from sleep mode
- Eco recovery modulates the sleep recovery mode to increase speed
- Automatically remove blank pages when scanning
- Scan and convert documents to Searchable PDF, Microsoft® Word, and Microsoft® PowerPoint
- Speed up the process of digitising documents with rapid single pass scanning (DADF) and smart media handling capabilities such as multi-sheet feed detection
- Enable guest printing with Direct Connection
- Support for industry standards such as Apple Airprint® and Mopria®

SECURITY

- Combination of Verify system at start up and McAfee Embedded Control Software ensures device functionality is never compromised from the tampering of firmware and applications, all in real-time.
- Certificate auto enrolment protects your network from malware attacks
- Syslog functionality provides real time security information which can be analysed by a capable third-party SIEM solution
- HDD Encryption function is now standard and automatically encrypts data stored on the main unit's Hard Disk Drive, to help prevent data leaks
- Choose from device-based or cloud-based authentication without the need for an additional server with uniFLOW Online Express
- Enhance document confidentiality with Secure Print
- Ensure information privacy and security across your office network with IPsec, port filtering capabilities, and SSL technology

MAINTENANCE

- New all-in-one cartridge-based system makes maintenance easy
- Toner bottle, drum unit, developer and waste toner container are integrated in one
- Removal and replacement of toner can be done without a technician, in one simple operation
- Designed to achieve maximum uptime with intuitive user maintenance videos and status notifications, for quick installation and replacements

USER EXPERIENCE

- Enhanced Home UI streamlines user workflows by enabling users to select various settings from a single menu
- Users can benefit from full consistency across the entire platform, for a reliable user experience
- 10.1 inch responsive colour touchscreen has intuitive smartphone-like usability
- Quiet finishing provides less interruptions to workers, keeping employees productive
- Unified Firmware Platform automatically keep devices up to date with the latest features and updates
- Remote diagnostics and assistance help reduce costs by minimising downtime

INTEGRATION

- Tight integration with uniFLOW Online Express, a cloud-based output management system, provides extensive tracking and reporting capabilities from a central web-based system
- uniFLOW Online Express integrates with all existing devices, intuitively allowing printing and scanning from anywhere, subject to user authentication
- Collaborates with various business applications and external systems, such as Google Drive™, Evernote® and Dropbox in the cloud
- Use "MyPrint Anywhere" capabilities with uniFLOW Online Smart Client, to temporarily hold print jobs and pass them to other devices for printing
- Canon's MEAP platform provides process optimisation, by integrating with a range of powerful document, capture and output management solutions, including uniFLOW*
- Additional functionality can be integrated through future version upgrades with the Unified Firmware Platform

COMPACT DESIGN

- Reduced physical footprint allows device to be placed in various spaces.
- Space optimisation includes functionalities such as the Automatic Document Feeder and IC card reader being built into the main hardware
- A dedicated finisher model stores a compact finisher inside the device to save space

* not available as standard

UNIFIED FIRMWARE PLATFORM

imageRUNNER ADVANCE GEN 3 3rd Edition is a range of intuitive multifunction printers that streamline workflow efficiencies, whilst providing maximum security for your business. The Unified Firmware Platform (UFP) ensures that the latest feature upgrades and protection are available, for an enhanced user experience across the entire portfolio.

QUICK FACTS

- **Format:** Mono A4
- **Maximum number of Paper Cassettes:** 4 – 1 is standard and up to 3 are optional cassettes for non-finisher models (i series), with up to 2 optional cassettes for finisher models (iZ series)
- **Paper input Capacity:** 3,300 sheets
- **Finishing Capabilities:** Standard model: Collate, Group Finisher Model: Collate, Group,Offset, Staple
- **Automatic Document Feeder Capacity:** 100 sheets
- **Automatic Document Feeder Type:** 1 Pass Automatic Document Feeder

- **A4 Mono Print Speed Range:** 52, 61, 71 ppm
- **Scan Speed:** Single-sided Scanning: 50 ipm/50ipm Double-sided Scanning: 100 ipm/100 ipm (300 dpi)

- **Print Languages:** UFRII, PCL6, Adobe PostScript 3
- **Print Resolution:** 1,200 dpi x 1,200 dpi

- Suitable for corporate office environments, where efficiency and quality of output are key
- Enhanced security features include Verify system at start up, Syslog data for 3rd Party SIEM integration and McAfee Embedded Control Software
- New, all-in-one cartridge-based technology reduces maintenance time and costs
- Automatic Certificate update helps you centrally manage the security certification of your fleet
- Increase productivity with the intiuitvely designed and customisable Home UI screen
- Wide-ranging mobile device support – includes Airprint and Mopria compatibility to ensure seamless integration with iOS and Android devices respectively
- uniFLOW Online Express cloud-connected document management comes as standard

TAILORED SOLUTIONS TO MEET EVERY CHALLENGE

CORE

Perform routine office operations safely and with ease, with minimum hardware, embedded software including UFOE and services offering complete device maintenance and support.
