Inhalation:	Remove exposed person to fresh air if adverse effects are observed.
Skin:	Wash with soap and water. Get medical attention if irritation develops.
Eye:	Flush immediately with water for at least 15 minutes. Get immediate medical attention.
Ingestion:	Do not make person vomit unless directed to do so by medical personnel.
Protection of first-aiders:	No action shall be taken involving any personal risk or without suitable training.

4.2 Most important symptoms and effects, both acute and delayed

See SECTION 11 for more detailed information on health effects and symptoms.

4.3 Indication of any immediate medical attention and special treatment needed

Notes to physician: Treatment should in general be symptomatic and directed to relieving any effects.

SECTION 5 FIRE FIGHTING MEASURES

5.1 Extinguishing media

Suitable extinguishing media:	Use water fog, foam, dry chemical or carbon dioxide to extinguish flames.
Unsuitable extinguishing media:	DO NOT use forcible water. See SECTION 11 for more detailed information on health effects and symptoms.

5.2 Special hazards arising from the substance or mixture

Hazards from the substance or mixture:	In a fire or if heated, a pressure increase will occur and the container may burst. Formation of toxic gases is possible during heating or in case of fire.
Hazardous combustion products:	Combustion products may include the following: Carbon oxides (CO, CO ₂), HF, COF ₂ , PFIB (Perfluoroisobutylene) Decomposition at flame temperatures may form toxic fluorine compounds. Avoid breathing decomposition products.

5.3 Advice for firefighters

Special precautions for fire-fighters:	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters:	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus with a full face-piece operated in positive pressure mode.

SECTION 6 ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel:	Eliminate all ignition sources. Evacuate surrounding areas.
For emergency responders:	Particular danger of slipping on leaked/spilled product.

6.2 Environmental precautions

Should be prevented from contaminating soil or from entering sewage and drainage systems and bodies of water.

6.3 Methods and material for containment and cleaning up

Small spill: Move containers from spill area. Absorb with an inert material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

Large spill: Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Suction or scoop the spill into appropriate disposal or recycling vessels, then cover spill area with oil absorbent. Dispose of via a licensed waste disposal contractor.
