

PRODUCT OVERVIEW

PRINTERLOGIC

PRINT DRIVER DEPLOYMENT AND MANAGEMENT SOLUTION

PrinterLogic's web-based application reduces print servers and delivers a single integrated platform that increases functionality and lowers cost. It also reduces headaches and saves valuable time by giving you centralised management over your entire print environment, while empowering end users to install their own printers.

- Centralised Print Management.
- Self-Service Printer Installation.

- Simplified VDI/Remote Session Printing.

See the bigger picture

“After evaluating nine competitive solutions, we can clearly say PrinterLogic’s solution is the best on the market. It saved us money, time and frustration—all while improving print services for our employees.”

Lufthansa Technik AG, Project Manager

CENTRALLY MANAGED DIRECT IP PRINTING

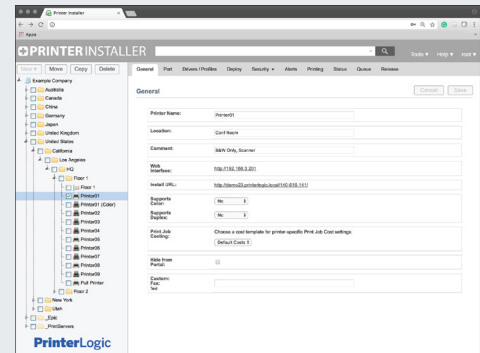

- Effortlessly import and migrate all printers with PrinterLogic’s admin console
- Centrally manage end-user printers, drivers, device settings and preferences
- Automatically apply all changes made by the administrator to end-user printers
- Eliminate complicated scripting and GPOs
- Deploy printers based on AD user, group, OU or IP address range
- Limit functional IT workers with role-based access control

SELF-SERVICE PRINTER INSTALLATION PORTAL

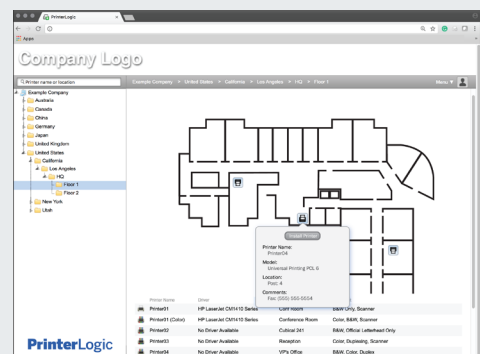

- Empower end-users to self-install printers with a single click
- Provide optional floor plan maps to help locate and install printers
- Significantly reduce the number of help desk calls

SIMPLIFIED REMOTE SESSION & VDI PRINTING ENVIRONMENTS

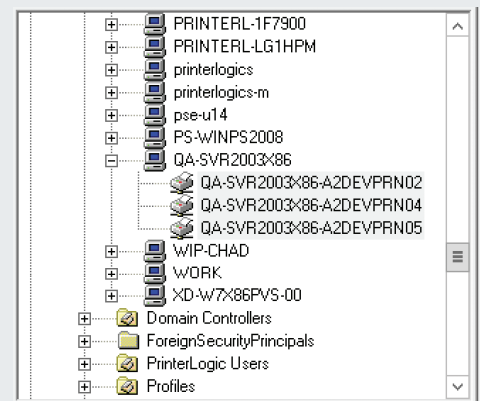

- Auto-deploy printers in sessions based on IP address of endpoint device
- Instantly create printers in the sessions and speed up login times
- Leverage VDI compression for print jobs across the WAN
