CCNA and CCNA regional warranty members do not warrant the following.

- Periodic checkups, maintenance, repair or replacement of regular replaced parts due to wear and tear.
- Equipment's with serial number defaced or altered
- Consumables
- Softwares
- Drum units, ETB's, ITB's, Fixing assembly
- Defects caused by modification without Canon approval
- Costs incurred by Canon Service Centers in making any adaptations or modifications of a product necessary for country specific technical or safety standards or specifications, or any other costs to adjust the product because of any specifications which have changed since the delivery of the product;
- Damage resulting from the fact that a product is not conforming to country specific standards or specifications in another country other than the country of purchase
- Warranty repair service is excluded if damage or defects have been caused by:
 - Using non-genuine consumables and ignoring replacing the consumables when needed to be replaced

- Improper use, excessive use, handling, or operation of the product as referred to in the users' or operators' manuals and/or relevant user documents, including without limitation, incorrect storage, dropping, excessive shocks, corrosions, dirt, liquid or sand damages.
- Repairs, modifications or cleaning carried out at a service center not authorized by Canon.
- Use of spare parts, software, accessories or consumables (such as Toner, Paper) which are not compatible with the product. Compatibility is ensured if consumables used are recommended by CCNA.
- Connecting the product to equipment not approved for connection by CCNA.
- Inadequate packaging of the product when returning it to the authorized Canon Service center.
- Machine connected to the recommended power supply with adequate actions to ensure a stable electrical power.
- Accidents or disasters or any cause beyond the control of CCNA, including but not limited to lightning, water, fire, public disturbances and improper ventilation
