PosterArtist: SOLVING YOUR POSTER DESIGN CHALLENGES

The right poster design can have an incredible impact. Bold colours, a memorable message, great imagery – these can all grab attention.

But creating high-quality posters quickly and affordably can be challenging, especially for people without professional training or experience. Many organisations have tight budgets and are under pressure to keep costs low. Professional design software, and outsourcing printing for short runs, can both be expensive.

In a hybrid working world, where people and teams are in multiple locations, it can be difficult to share and collaborate on designs.

PosterArtist solves these problems. Discover how it can help you design and print outstanding posters and graphics.

CREATE INCREDIBLE POSTERS WITH YOUR CANON PRINTER

Looking for help with your designs? The web version of PosterArtist is packed with layouts, templates, fonts and clip art to make designing your own poster fun and easy. Even for professional designers and print businesses, PosterArtist can inspire creativity and save valuable time.

Pick a design template and customise it by editing fonts, colours and more.

FONTS

COLOURS

There are millions of images to choose from thanks to integrated access to Pixabay, Unsplash, and Pexels photo libraries, while the intuitive user interface makes every process simple.

PHOTOS

CLIP ART

The 'Auto Design' function lets you choose from various layouts to create a unique design. Simply enter the category and title of your advert, and insert your perfect images.

LAYOUT

PosterArtist has been designed to work seamlessly with Canon printers, to streamline workflows and maximise value-added features to upgrade your poster designs.

The new version of PosterArtist is web-based, so there's no complicated or expensive software to install. There's no need to worry about data security either – that's managed by Canon ID account authentication. Access through the cloud also makes it easy to share your designs with colleagues and friends, wherever they are.

Whether you're a user of Canon PIXMA at home, imageRUNNER ADVANCE or i-SENSYS in the office, or imagePRESS or imagePROGRAF in your professional print room, the web version of PosterArtist helps you control the quality, cost, security and timelines of your poster designs. What could you create?
