	Warranty Repair Enclose receipt	Fixed price ¹ SEK incl. VAT <input type="text"/>	Repair limit SEK incl. VAT <input type="text"/>	Cost Estimate

3	Model name	Fault Description (Please note any error messages or software/operating systems used)		
	Serial number			
	Warranty Repair Enclose receipt	Fixed price ¹ SEK incl. VAT <input type="text"/>	Repair limit SEK incl. VAT <input type="text"/>	Cost Estimate

¹ Upon particles/liquid/bump damage, we reserve the right to send you a cost estimate. If the product has been checked previously and a cost estimate has been made for the same problem, the repair cannot be changed into Fixed Price.

Customer Repair Returns Form

Accessories Please do not include any accessories with your unit (including batteries, memory cards, leads, manuals etc.) unless believed to be connected to the possible fault. If you feel it's related to the fault, please include prints/photos. For printers & multifunctional units please secure print head/ink tanks following the transport instructions in your user manual.

Please list accessories included (if applicable): _____

Here are our different types of repair services:

- **Warranty Repair:** Please include proof of purchase in case of warranty repair.
- **Fixed Price:** Quick and priceworthy alternative. We repair all faults found in your product for a fixed price even if the actual cost exceeds the fixed price. However, we reserve the right to offer you a cost estimate if your product is malfunctioning due to particles/liquid/bump damage. There will not be an examination fee if you choose to decline the cost estimate and want your product returned to you. Please note! If the product has been checked previously and a cost estimate has been made for the same problem, we cannot handle the repair at Fixed Price. The Fixed Price offer is not valid for preventive or cosmetic repairs. Please contact the workshop for your Fixed Price.
- **Maximum Price:** You decide the maximum repair cost, a price that you feel is acceptable. In return, the time for reparation decreases dramatically when compared to the cost estimate. Your product will be repaired as long as it stays within the maximum repair cost and it can even be lower. If the repair would exceed the maximum price, you will be sent a cost estimate before we continue with the repair. There will be an examination fee between 500SEK to 725SEK incl. VAT + freight cost, depending on the product, if you decide to decline the cost estimate.
- **Cost Estimate:** We examine your device according to your fault description and send you a cost estimate via e-mail. There will be an examination fee of between 500SEK to 725SEK incl. VAT + freight cost, depending on the product if you decide to decline the cost estimate and want the product shipped back un-repaired. Please note! If a cost estimate has been requested, or if the product has been checked previously and a cost estimate has been made for the same problem, the repair cannot be changed into Fixed Price.

Additional information to the workshop:

For camera or lens:

Have you tried to reset the camera settings to see if the problem disappears? Yes No
