

# ME AND MY CANON MAXIFY GX7050

## About Polwarth Dental Clinic

Polwarth Dental Clinic has been serving the community in Edinburgh for 34 years. The Clinic prides itself on creating a pleasant atmosphere for all its patients, providing the highest standard of dentistry using the latest equipment and techniques in its modern and friendly surgery.

## Why the MAXIFY GX7050 is the perfect fit for Polwarth Dental Clinic

The MAXIFY GX7050 is situated prominently in the reception area of the dental clinic, so its ability to provide high performance from a small footprint is of paramount importance and this feature packed 4-in-1 printer has

“The MAXIFY GX7050 is by far the best printer we have ever used. We use it to print absolutely everything from patient records and invoices to colouring in sheets for children. Its quick speeds and reliability are essential to helping us keep the practice running efficiently.”

Canon

## Key benefits

- Functions: Wi-Fi, Ethernet, Print, Copy, Scan, Fax & Cloud
- Refillable ink tank
- High page yield: 6,000 pages for black, 14,000 pages for colour
- Fast print speeds
- Wide variety of media handling
- Wireless connection

provided the ideal solution. The device is needed to process all of the clinic's paper documents, from printing invoices and treatment plans to scanning all patient records. Therefore, a multi-function printer that can print, copy, scan and fax - all in a single device - was important.

The MAXIFY GX7050's excellent 50-sheet auto duplex document feeder, which allows for a single pass 2-sided

scan, has been able to digitise the dental clinic's patient records at speed, transforming its ability to easily process and access patient records. The speed of the device is another important factor, as patients are often waiting in reception for their records. The fast and efficient GX7050 helps to deliver excellent customer service, ensuring patients are never waiting too long for their printed information.

“We've been delighted with how easy to use the MAXIFY GX7050 is! We're not an especially technical clinic but the device was extremely quick to set up and use, and the use of refillable bottles instead of ink cartridges adds to its simplicity.”
