

Canon Europe, Middle East, and Africa Environmental Charter

Canon EMEA's Environmental Charter has been built on the fundamental principles outlined in the Canon Group's Environmental Charter. It reflects our EMEA operations and our impact on the environment and the community.

Kyosei: our corporate philosophy

We operate according to our Kyosei Corporate philosophy of living and working together for the common good.

Canon EMEA's Environmental Commitment

In line with our corporate philosophy, we strive to do business while reducing the environmental impacts of our operations and creating positive change by providing innovative products and services for our customers.

We deliver our commitment by adhering to the following practices:

1. We establish and operate an environmental management system designed to continuously improve our environmental performance*.
2. We raise the environmental awareness of our employees while empowering and encouraging them to minimize Canon's environmental footprint*.
3. In our purchasing and outsourcing decisions, when practicable, we specify products and services with lower environmental impact*.
4. We operate in accordance with all relevant environmental regulations and compliance obligations in EMEA and uphold Canon Group environmental requirements.
5. We are committed to protecting the environment, [addressing climate change and reducing our carbon footprint](#), and contributing towards Canon's global target to achieve Net Zero CO₂ emissions by 2050 by reducing greenhouse gas emissions and actively pursuing pollution prevention, [climate resilience](#), and resource conservation measures.
6. We work to collect end-of-use products and materials, extend their lifecycle, and recycle materials to promote a circular economy.
7. Our sustainability strategy is designed to understand and meet the expectations of our customers, stakeholders, and wider society.
8. We maintain close relationships with partners, communities, governments, industry groups and other parties and actively disclose our environmental programmes and performance.

*The terms environmental performance, footprint or impact include, but are not limited to, GHG emissions/resource use/energy consumption/chemical substance use.
