

imagePRESS Server M20

Fiery FS500

Enhanced productivity and quality to meet your requirements

Get the most out of your Canon imagePRESS C265/C270 printer by combining it with the imagePRESS Server M20, to deliver high quality output with exceptional productivity.

More pages in less time

- With the innovative Fiery® FS500 software, productivity is taken to its maximum expression with a combination of processing power, management and automation tools to take the most out of your printer.
- Increase your production, reduce errors, plus make job management faster and more efficient with Fiery Command WorkStation®.

First class automation tools

- Use server presets to make job submission fast and error-free. Or add the optional Fiery Automation Package to reduce job touchpoints and make your workflow even more efficient.
- Use the Fiery TrueBrand® application to print accurate brand colours from Microsoft Office applications in just a few clicks. No advanced colour knowledge required!
- The new optional Fiery JobExpert and PDF Processing Kit automatically sets the optimal job properties to achieve the highest print quality with the minimum processing time along with native processing of PDF files with Adobe PDF Print Engine.
- Offer personalised printing with the Fiery FreeForm™ Create. Quickly personalise existing files by adding variable elements such as text, images, or barcodes with just a few clicks.

Specifications

Fiery Driven™ engines

- Canon imagePRESS C265/C270

Hardware and platform

- Intel® Pentium® G5400 Processor
- 8 GB RAM
- 500 GB HDD
- Linux operating system
- Fiery Installer Builder
- Fiery FS500 software

File format support

- Adobe® PostScript® Levels 1, 2, 3
- Adobe PDF
- Enhanced PCL® 6/PCL 5
