

PUSH YOUR CREATIVE LIMITS

**imagePRESS C170 Series from Canon.
Making it easy for you to do more**

Canon

A POWERFUL BLEND: FUNCTIONALITY & QUALITY

There are now countless opportunities to grab attention with stand-out printed materials. That's why you need a digital printer that enables you to push your creative limits, but is easy to use.

The way we're working is changing. Many of us are spending much less time in the office, reducing face-to-face meetings and spending a lot of time online. With such a high percentage of our time spent on digital channels, achieving cut-through with customers is becoming increasingly challenging. Creative, quality print is proving to be an effective way to initiate and maintain communications.

You need to be able to create cost-effective prints that get noticed and provoke a response. But we understand that you might be reluctant to invest in high quality print technology if you already work with outsourcing partners for production. Now there's an

alternative. Your business can cost-effectively and efficiently produce quality assets in-house by investing in the imagePRESS C170 Series from Canon. This versatile solution offers you the best of both worlds: an economical everyday printer which also enables you to create professional level prints.

It combines the key features of Canon's imagePRESS technology – consistently high print quality, great performance and proven reliability – all with the familiarity and simplicity of the award-winning imageRUNNER ADVANCE office range.

Be confident. It's time to unlock your business potential with creative use of print.

MAKING IT EASY FOR YOU TO DO MORE

The imagePRESS C170 Series is the solution for all your printing needs. In any business, this versatile multi-function device easily handles your day-to-day document workflows while also giving you the option to print high quality marketing materials.

Broaden your print capabilities

- Produce high quality professional-looking print
- Flexibility to handle simple and complex 'walk-up' demands with ease
- Create everything from business documents to marketing collateral
- Maintain consistent colour for brand integrity across all your materials
- Deliver stand-out print in-house and get to market faster with lower costs

Increase stakeholder engagement

- Collaborate efficiently with streamlined information workflows
- Mix promotional communications to engage customers
- Grab attention with fresh formats and textured media
- Enhance your brand experience with high-quality print
- Personalise your print to boost campaign response

Typical applications of the imagePRESS C170 Series in a retail environment

PAPER IN – POSSIBILITIES OUT

Creative print can make the difference to your audience, whether that's in an internal presentation or for a direct mail piece. The touch of print awakens the senses. Meaningful personalisation enhances customer experiences. Print drives engagement and creates value.

In the past, perhaps you've been held back by your printer's capabilities, but not anymore.

With Canon's new imagePRESS C170 Series, you can transform blank paper into creative and engaging collateral.

At the push of a button, you can print a variety of material. Manuals, reports and presentation handouts, business cards, personalised direct mail and even short-run customised packaging. All to a professional standard.

Now it's quicker and easier for you to do more with a single device.

Be creative. Deliver results

With the imagePRESS C170 Series, you can create print that commands attention, drives customer engagement and provokes response.

Be different, use unusual paper sizes, heavier weights and textured media to stand-out. Capture new business with more targeted communications.

- Reports & presentations
- Brochures, catalogues & manuals
- Promotional materials, including Point-of-Sale
- Direct mail
- Business cards & invitations
- Design proofs & mock-ups
- 'Banner' prints & posters
- Short-run customised packaging

ANY BUSINESS. COUNTLESS POSSIBILITIES. ONE SOLUTION

The quality of a professional device, the ease of use of an office printer. One solution that makes it easy for you to more.

The imagePRESS C170 Series delivers a diverse range of printed materials on-demand. It's the perfect combination of office functionality and professional quality that can help you meet changing business demands and tackle day-to-day tasks with confidence.

And with the scope to **print on longer sheets** or **heavier paper stocks**, you can push your creative limits and do more with one simple printer.

Perhaps you're in a creative agency and looking to impress clients with new formats and effects.

Or you're in a corporate environment and you want to simplify the chain of communication, while pushing creative boundaries.

Maybe you run a copy-shop and you want to build new revenue streams by offering more to your customers.

Or you're a small business and you want to trial different types of promotional print to engage your customers, in an easy and streamlined way.

Compact and intuitive to use, with no need for print expertise, **it's a great fit for any business environment.**

Achieve professional quality print with ease

- Sharp, hi-res images thanks to imagePRESS R-VCSEL Laser

SMARTER THAN YOU THINK

The imagePRESS C170 Series is the smart solution for all your business needs, packed with features to ensure efficient production. It takes the hard work out of your printing, so you can focus on driving business growth.

Typical applications of the imagePRESS C170 Series for the healthcare industry

Security

You need your business data to be secure. Thanks to uniFLOW Online Express as standard, the imagePRESS C170 Series gives you an all-in-one, ready-to-use online print management service. It works seamlessly with your existing processes, brings print related costs under control, provides enhanced document security - to safeguard your data and protect your intellectual property - and increases employee productivity.

For additional functionality you can transition to uniFLOW Online to benefit from a complete and secure cloud print management software with printing on-demand.

Mobility

Many options to print and scan from anywhere to any Canon device and offer secure ad hoc mobile printing for your guests, including:

- **Canon PRINT Business app***
- **uniFLOW Online****
- **Mopria Print Service**
- **The direct connection feature on the device**

User Productivity

uniFLOW Online** boosts productivity by creating tailored workflows to capture, share and store digital documents. You can accurately track expenses and set rules, auto-delete unreleased jobs and only print the collateral you need. Produce the exact number of copies you want, when you want them. With on-demand printing, there's no waste and no inventory to store. You can run dynamic campaigns updating messages, incentives and calls to action as you go.

With the imagePRESS C170 Series, you have a reliable technology solution that won't let you down, and eMaintenance services to access fast, proactive support when you need it.

Cost Management

Our cloud based solution means you can easily track and control usage and application resources. It has a low start-up cost and simple functions. You can manage print costs, help alter wasteful actions and limit or restrict access.

Device and Fleet Management

uniFLOW Online** captures, archives and shares information, so you can centralise control of all document workflows and make collaboration easier.

Automatic updates of the online software give you flexibility and frees up your time to focus on other business growth opportunities. Remote diagnostics and support help to lower your costs by reducing downtime and manual processes. Using imageWARE Management Console you have a central control point across your whole fleet worldwide.

Sustainability

Efficient energy use, a proofing option to reduce waste and sleep mode when the printer's not in use make the imagePRESS C170 Series a sustainable choice.
