

# imageRUNNER ADVANCE DX: YOUR FUTURE, TODAY

**The way we work is changing.** As your business embraces new practices including hybrid working, the imageRUNNER ADVANCE DX portfolio can support your digital transformation journey and help improve your efficiency, productivity, sustainability and provide easier collaboration for your team.

**95%** of all public, private and hybrid workloads will run in the cloud by 2025, according to 74% of global IT decision makers<sup>1</sup>

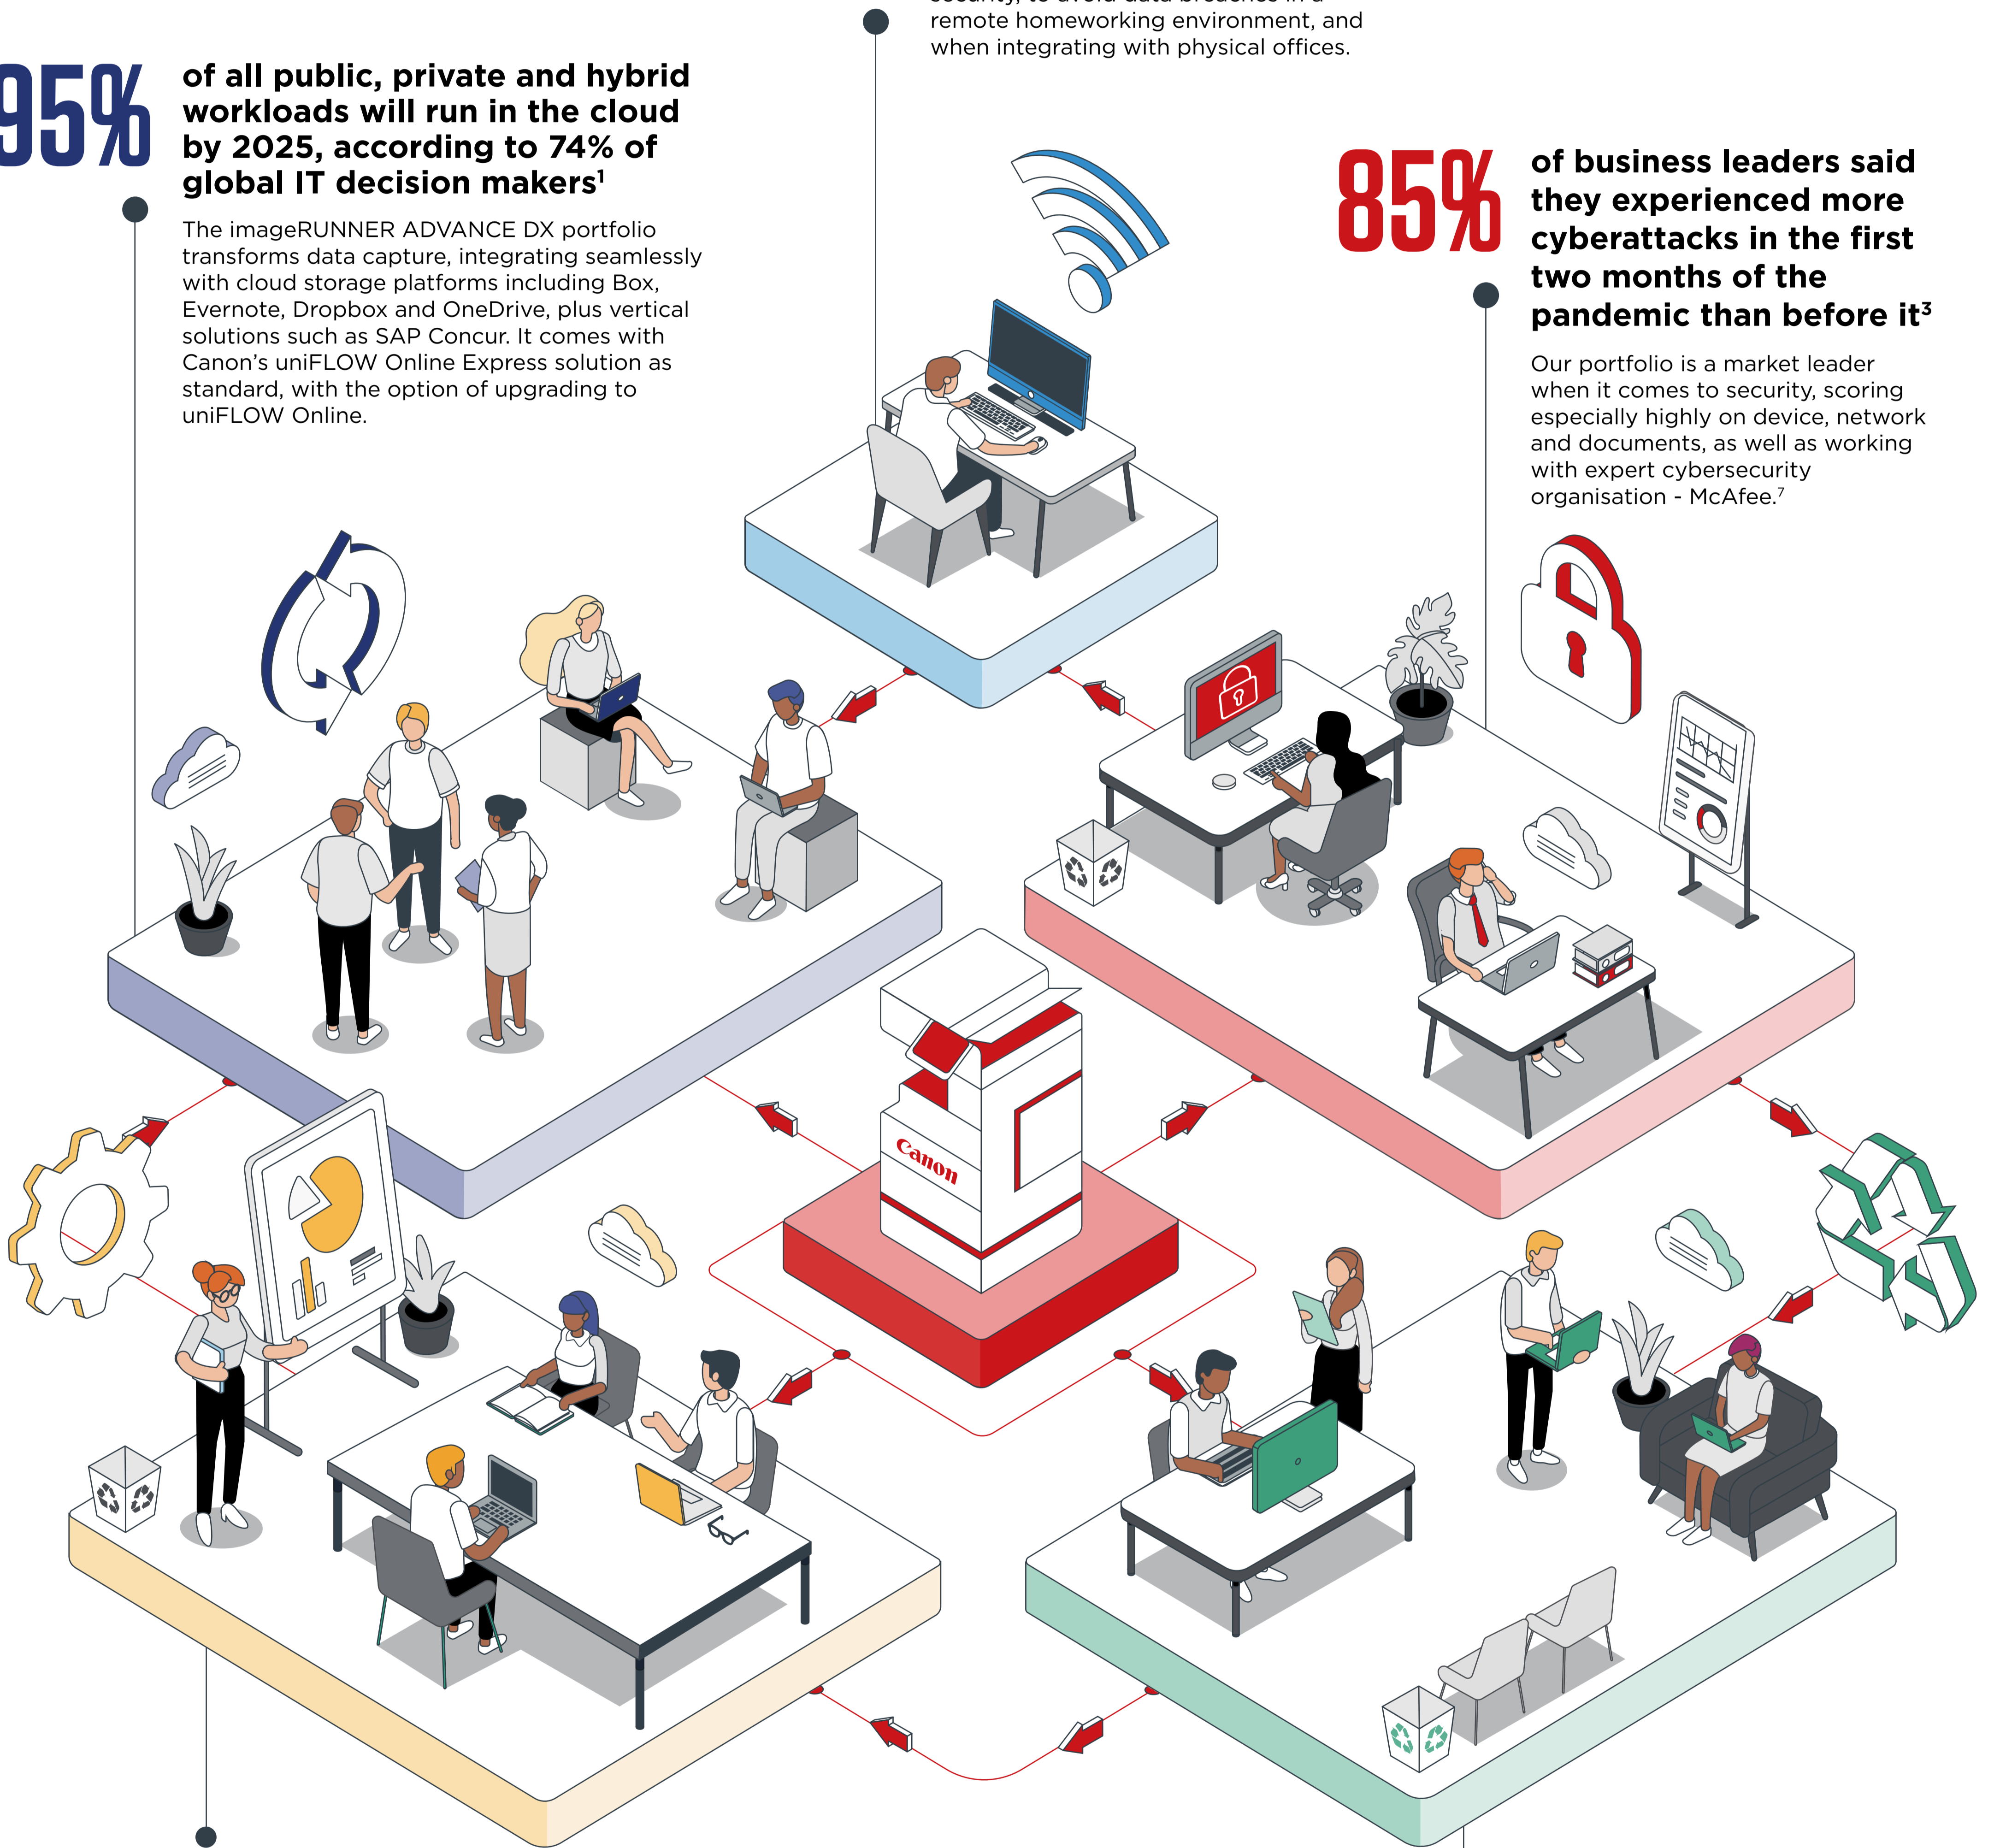

The imageRUNNER ADVANCE DX portfolio transforms data capture, integrating seamlessly with cloud storage platforms including Box, Evernote, Dropbox and OneDrive, plus vertical solutions such as SAP Concur. It comes with Canon's uniFLOW Online Express solution as standard, with the option of upgrading to uniFLOW Online.

**4-5x** more remote work than before the pandemic, globally.<sup>2</sup>

This presents challenges in terms of security, to avoid data breaches in a remote homeworking environment, and when integrating with physical offices.

**85%** of business leaders said they experienced more cyberattacks in the first two months of the pandemic than before it<sup>3</sup>

Our portfolio is a market leader when it comes to security, scoring especially highly on device, network and documents, as well as working with expert cybersecurity organisation - McAfee.<sup>7</sup>

**85%** Increased interest in digitisation of paper-based processes<sup>6</sup>

Fully integrated end-to-end document workflows enable quick and effective capture, archiving and collaborative working, with our devices supporting mobile working and co-working spaces.

**45%** fall in global net human-caused CO<sub>2</sub> emissions is needed by 2030, followed by a drop to net zero around 2050, to limit warming to 1.5°C<sup>4</sup>

To date, 270 companies have signed the Business Ambition for 1.5°C commitment to help achieve this. The imageRUNNER ADVANCE DX portfolio's smart features minimise print waste and power consumption. Our latest devices have sustainability at their core; the overall CO<sub>2</sub> for the lifecycle of the imageRUNNER ADVANCE DX C5800 Series has been reduced by 18%.<sup>5</sup>
