

imageRUNNER ADVANCE EQ80 4200 Series

BRING SUSTAINABILITY TO HYBRID WORKING

REMANUFACTURED, BEST-SELLING PRODUCTS AND ADD-ON SOFTWARE INCREASE SUSTAINABILITY FOR YOUR ENVIRONMENT

Sustainability is the key to future-proof businesses. The Canon imageRUNNER ADVANCE EQ80 4200 Series is the next generation of remanufactured multifunction devices, designed to increase sustainability without compromising on security. Built with remanufactured best-selling devices utilising up to 80% reused materials, the EQ80 Series improves product longevity and minimises businesses' environmental impact by reducing waste. Improved hardware, and the option to include Canon's leading cloud software, uniFLOW Online*, optimises production workflows for new, hybrid working environments.

Canon's imageRUNNER ADVANCE EQ80 4200 Series offers efficient and secure A3 mono multifunction devices that streamline workflow efficiency, with added peace of mind for document security, cloud connectivity, and sustainability.

With leading sustainability credentials, and a range of Fleet Management options, the Canon imageRUNNER Advance EQ80 4200 series is ideal for public sector and educational environments.

SUSTAINABILITY

SECURITY

CLOUD CONNECTIVITY

Canon

imageRUNNER ADVANCE EQ80 4200 Series

SUSTAINABILITY

- Use of remanufactured components reduces the amount of raw material needed for production by up to 80%
- Use of upgraded material products reduces CO₂ produced during manufacturing by up to 80%

QUALITY & RELIABILITY

- Our best-selling, high-quality imageRUNNER ADVANCE models, refreshed to deliver greater sustainability benefits
- Remanufactured, not just refurbished, to set the counter back and ensure long-term, high-quality performance

SECURITY

- Updated with additional, enhanced security features such as User Authentication and Department ID now offered as standard
- Further security functions available, including My Print Anywhere secure print (requires uniFLOW) and Access Management System
- Information confidentiality and security is provided across the network with IPsec and firewall integrations
- Card-based device authentication, and function restrictions for device and cloud-based security measures available through uniFLOW Online* and hardware add-ons
- Encrypted PDF printing and other additional features ensure document security during production process

CLOUD CONNECTIVITY

- Cloud-based software uniFLOW Online:
 - Offers a single integrated solution to enhance device security and simplify print management, especially across hybrid environments
 - Enables users to print documents from wherever they are working, with re-usable print formats for rapid production
- Canon's additional MEAP platform streamlines processes with integrations for output management and cloud solutions such as uniFLOW Online, AirPrint, Mopria, and Canon PRINT Business
