# BRING SUSTAINABILITY TO HYBRID WORKING

PLAY YOUR PART IN THE CIRCULAR ECONOMY WITH A REMANUFACTURED DEVICE DELIVERING SOPHISTICATED PRINT AND SCAN PRODUCTION

Sustainability is the key to future-proof businesses. The Canon imageRUNNER ADVANCE EQ80 6275i is the next generation of remanufactured multifunction devices, designed to increase sustainability without compromising on security. Built with remanufactured best-selling devices utilising up to 80% reused materials, the EQ80 Series improves product longevity and minimises businesses' environmental impact by reducing waste. Improved hardware, and the option to include Canon's leading cloud software, uniFLOW Online\*, optimises production workflows for new, hybrid working environments.

Canon's imageRUNNER ADVANCE EQ80 6275i offers next generation enhancements to sustainability and security – an efficient A3 mono multifunction device that supports the circular economy and simplifies business workflows, with document security and cloud connectivity as standard.

An industry-leading practical solution for public sector and educational environments, the Canon imageRUNNER ADVANCE EQ80 6275i offers a choice of Fleet Management options to seamlessly integrate into any workplace.

**SUSTAINABILITY**

**QUALITY & RELIABILITY**

# imageRUNNER ADVANCE EQ80 6275i

## SUSTAINABILITY

- Use of remanufactured components reduces the amount of raw material needed for production by up to 80%
- Biobased plastics used in high-touch areas on original device continue to deliver a 20% reduction of CO<sub>2</sub> emissions
- Use of upgraded material products reduces CO<sub>2</sub> produced during manufacturing by up to 80%

## QUALITY & RELIABILITY

- Our best-selling, high-quality imageRUNNER ADVANCE models, refreshed to deliver greater sustainability benefits
- Remanufactured, not just refurbished, to set the counter back and ensure long-term, high-quality performance

## SECURITY

- Updated with additional, enhanced security features such as User Authentication and Department ID now offered as standard
- Further security features available, including My Print Anywhere secure print (requires uniFLOW) and Access Management System
- Information confidentiality and security is provided across the network with IPsec and firewall integrations
- Card-based device authentication, and function restrictions for device and cloud-based security measures available through uniFLOW Online\* and hardware add-ons
- Optional features including Encrypted PDF printing ensure document security during production process

## CLOUD CONNECTIVITY

- Cloud-based optional software uniFLOW Online\*:
  - Offers a single integrated solution to enhance device security and simplify print management, especially across hybrid environments
  - Enables users to print documents from wherever they are working, with re-usable print formats for rapid production
- Canon's additional MEAP platform streamlines processes with integration for output management and cloud solutions such as uniFLOW Online, AirPrint, Mopria, and Canon PRINT Business

## QUICK FACTS

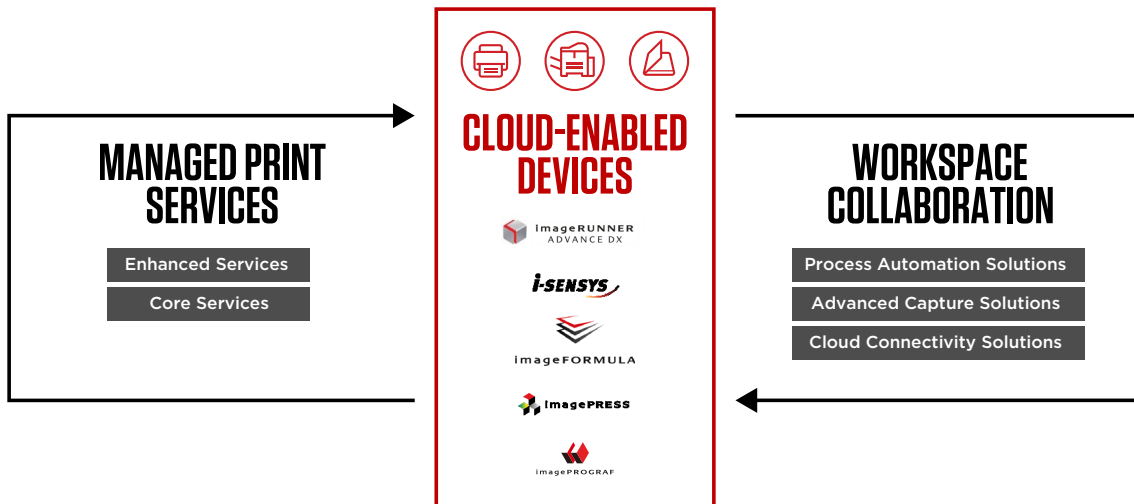

-  **Format:** Mono A3
-  **Paper Supply Capacity (Max):** 4,200 sheets
-  **Warm-up time:** 7 seconds (using Quick Start Mode)
-  **Finishing Capabilities:** Collate, Group, Offset, Staple, Saddle Stitch, Hole Punch
-  **Supported File Types:** JPEG, TIFF, PDF, XPS

-  **Print speed:** 75 ppm (A4)
-  **Scan Speed:** Up to 120 ipm (A4 Single Sided BW)
-  **Print Languages:** UFRII, PCL5e/6
-  **Print Resolution:** 1,200 x 1,200 dpi, 600 x 600 dpi

- Industry-leading remanufactured devices improve device sustainability and contribute to the circular economy by using up to 80% reused materials.
- Comprehensive security protects the integrity of documents, data, devices and networks.
- Remanufactured to set the counter back and ensure reliable, quality performance for the rest of your contract.
- Connection to powerful cloud technology uniFLOW Online\* enables seamless integration with hybrid working environments.

\*uniFLOW Online is available as a Device Based Cloud Subscription for Document Output and Capture Management. According to their business needs, users can upgrade to uniFLOW Online to unlock a range of advanced benefits, including : Increased security with user authentication methods. Personalised workflows to enhance productivity. Reduced wastage by releasing jobs at the device. An intuitive cloud dashboard to leverage real-time data. Greater control over access and usage to reduce print costs.

## TAILORED SOLUTIONS TO MEET EVERY CHALLENGE

Canon's Digital Transformation Services (DTS), bring together our leading hardware and software into an integrated technology ecosystem, designed to support your transformation journey. This offering combines Managed Print Services and Workspace Collaboration solutions, to help you gain transparency and control over the entire document lifecycle.
