imageRUNNER ADVANCE EQ80 C5200 Series

INCREASE PRODUCTIVITY, WORK SUSTAINABLY

REMANUFACTURED BEST-SELLING PRODUCTS AND ADD-ON SOFTWARE INCREASE SUSTAINABILITY AND OPTIMISE PRODUCTIVITY

Sustainability is the key to future-proof businesses. The Canon imageRUNNER ADVANCE EQ80 C5200 Series is the next generation of remanufactured multifunction devices, designed to support sustainable efforts and improve productivity. Built with remanufactured best-selling devices, the EQ80 Series improves product longevity and minimises businesses' environmental impact by reducing waste. Improved hardware and the option to include Canon's leading cloud software optimises production workflows for robust office needs.

Canon's imageRUNNER ADVANCE EQ80 C5200 Series provides efficient and secure A3 colour multifunction devices that streamline workflow efficiency, with added peace of mind for document security and sustainability. Cloud connectivity with uniFLOW Online Express as an option and increased print speeds ensure accurate and rapid production for effective print management.

SUSTAINABILITY

PRODUCTIVITY

SECURITY

CLOUD CONNECTIVITY

Canon

imageRUNNER ADVANCE EQ80 C5200 Series

SUSTAINABILITY

- Use of renewed technologies reduces raw material use for production by up to 80%
- Use of upgraded material products reduces CO2 produced during manufacturing by up to 80%

PRODUCTIVITY

- High-quality printing at 40-55ppm (A4) with various connectivity options
- Output management software - uniFLOW Online Express (uFOE) provide centralised control

- Reusable formats and Office format conversions enable simple handling and rapid document processing with uniFLOW Online

SECURITY

- Information confidentiality and security is provided across the network with IPsec and firewall integrations
- Create card-based device authentication, two-factor authentication and device function restrictions for device and cloud-based security measures with uniFLOW Online* and hardware add-ons
- Encrypted PDF printing and other additional features ensure document security during production process

CLOUD CONNECTIVITY

- Cloud-based software uniFLOW Online Express offers a single integrated solution to enhance device security and simplify print management
- Print documents from anywhere with expansive cloud connectivity, with re-usable print formats for rapid production
- Canon's additional MEAP platform streamlines processes with integrations for output management solutions such as uniFLOW, AirPrint, Mopria, Google Cloud Print and Canon PRINT Business

*uniFLOW Online is available as a Device Based Cloud Subscription for Document Output and Capture Management. Based on business needs, users can upgrade to uniFLOW Online to unlock a range of advanced benefits, including: Increased security with user authentication methods. Personalised workflows to enhance productivity. Reduced wastage by releasing jobs at the device. An intuitive cloud dashboard to leverage real-time data. Greater control over access and usage to reduce print costs.

QUICK FACTS

- **Format:** Colour A3
- **Paper Supply Capacity:** 2,300 sheets
- **Warm-up time:** 31 seconds or less
- **Finishing Capabilities:** Collate, Group *Staple, Saddle Stitch** **With optional finishing units*
- **Supported File Types:** JPEG, TIFF, PDF*, XPS* **with add-on*

- **Print speed:** 40-55 ppm (A4)
- **Scan Speed:** Up to 120 ipm (A4)

- **Print Languages:** UFRII, PCL5e/6, Adobe® PostScript 3™* **Only for C5255i EQ80*
- **Print Resolution:** 1,200 x 1,200

- Canon's eco values are reflected with remanufactured and next generation technology, increasing office sustainability
- Office documents, devices and networks are protected with comprehensive security features offered as standard
- Increased print speeds from iR ADV Gen 1 models enable faster working and improved productivity
- Connect to powerful Cloud technology with uniFLOW Online Express, (uFOE) offered as an option

TAILORED SOLUTIONS TO MEET EVERY CHALLENGE

CORE

Perform routine office operations safely and with ease, with minimum hardware, embedded software including (uFOE) and services offering complete device maintenance and support.

HARDWARE

SERVICES

SOFTWARE

ENHANCED

Boost performance with enhancements such as finishing options and security add-ons e.g. Data Removal Service. Choose solutions to expand cloud capabilities with uniFLOW Online including advanced scanning directly with your Google account.

BESPOKE

Choose tailored solutions for any business need by removing print management burdens. Consult with Canon experts to manage your extensive requirements, with bespoke solutions and Managed Services options.
