# SCANNING SOLUTIONS FOR
THE IRISH LEGAL SECTOR

Whether you are a barrister or solicitor with your own practice, or part of a larger legal firm with complex needs, here at Canon Ireland we have the perfect solutions for your business.
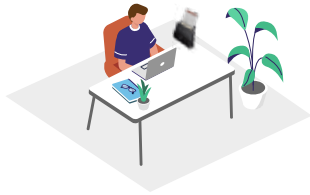

Home office

With a range of small footprint scanning devices, your employees can be as productive as if they were in the office. Canon systems easily integrate remote devices to the core systems and make sure that the information workflows are secure and not interrupted.

Mailroom

Whilst legal documents can come in a wide range of shapes and sizes they have one thing in common – they need to be digitised and distributed quickly to the right people. With our high volume production scanners integrated with the workflow management systems you can do exactly that in no time.

Office

At the core of any productive and efficient office is the hardware and software infrastructure. Canon offers a range of integrated hardware and software solutions for any size of legal business.

Archive

Digitisation of legacy records and easy distribution of information through modern data management systems is critical for any legal business. The time is saved on retrieval of historical information and be devoted to improved efficiency in preparation of the digital court documentation.

On the road

Scan documents quickly and securely on site without the need to remove confidential information from your customer premises. They can easily be integrated with your systems using our cloud based solutions.
