

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1. Product identifier

**Product name** Canon FX4 Cartridge (for Laser Facsimile)  
**Product code(s)** 1558A003

### 1.2. Relevant identified uses of the substance or mixture and uses advised against

**Use** Toner for electrophotographic machines

### 1.3. Details of the supplier of the safety data sheet

#### Supplier

Importer  
Canon Europa N.V. / Canon (UK) Ltd.  
Bovenkerkerweg 59, 1185XB Amstelveen, The Netherlands  
+31 20 5458545, +31 20 5458222  
www.canon-europe.com, ceu-Reach@canon-europe.com

4 Roundwood Avenue, Stockley Park, Uxbridge, UB11 1AF, U.K.  
+44 01895 648000

#### Manufacturer

Canon Inc.  
30-2, Shimomaruko 3-Chome, Ohta-ku, Tokyo 146-8501, Japan

### 1.4. Emergency telephone number

## SECTION 2: Hazards identification

### 2.1. Classification of the substance or mixture

**Classification according to Regulation (EC) No 1272/2008**  
Not classified

## 2.2. Label elements

### Labelling according to Regulation (EC) No 1272/2008

#### Hazard pictograms

Not required

#### Signal word

Not required

#### Hazard statements

Not required

#### Precautionary statements

Not required

#### Other information

None

## 2.3. Other hazards

None

## SECTION 3: Composition/information on ingredients

### 3.2. Mixtures

| Chemical name                                                                                                                                           | CAS-No     | EC-No     | REACH registration number | Weight %                       | Classification (Regulation (EC) No 1272/2008) | SCL, M-factor, ATE | Note to other hazards |

| Ferrite including copper and zinc                                                                                                                       | CBI        | CBI       | None                      | 40 - 50 (as Cu:0-0.4 Zn:0-0.7) | None                                          | No data available  |                       |
| silanamine, 1,1,1-trimethyl-N-(trimethylsilyl)-, hydrolysis products with silica; pyrogenic, synthetic amorphous, nano, surface treated silicon dioxide | 68909-20-6 | 272-697-1 | None                      | < 3                            | STOT RE 2 (H373)                              | No data available  |                       |

Full texts of Hazard statement(s) are listed in SECTION 16

Note to other hazards : The following substance(s) is (are) marked with (1), (2), (3) and/or (4)

- (1) Substance for which EU Occupational Exposure Limit(s) is (are) established (See SECTION 8)
- (2) PBT substance or vPvB substance under Regulation (EC) No 1907/2006
- (3) Substance listed in Candidate List of SVHC for Authorisation under Regulation (EC) No 1907/2006
- (4) Endocrine disrupting substance under Delegated Regulation (EU) 2017/2100 or Regulation (EU) 2018/605

This product does not contain the following substances in its printing ingredients intentionally: lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBBs), polybrominated diphenyl ethers (PBDEs), bis(2-ethylhexyl) phthalate (DEHP), butyl benzyl phthalate (BBP), dibutyl phthalate (DBP), or diisobutyl phthalate (DIBP).

## SECTION 4: First aid measures

### 4.1. Description of first aid measures

#### Inhalation

Move to fresh air. Get medical attention immediately if symptoms occur.

#### Ingestion

Rinse mouth. Drink 1 or 2 glasses of water. Get medical attention immediately if symptoms occur.

**Skin contact** Wash off immediately with soap and plenty of water. Get medical attention immediately if symptoms occur.

**Eye contact** Flush with plenty of water. Get medical attention immediately if symptoms occur.

**4.2. Most important symptoms and effects, both acute and delayed**

**Inhalation** None under normal use. Exposure to excessive amounts of dust may cause physical irritation to respiratory tract.

**Ingestion** None under normal use.

**Skin contact** None under normal use.

**Eye contact** None under normal use. May cause slight irritation.

**4.3. Indication of any immediate medical attention and special treatment needed**

None

**SECTION 5: Firefighting measures**

**5.1. Extinguishing media**

**Suitable extinguishing media**  
Use CO<sub>2</sub>, water, dry chemical, or foam.

**Unsuitable extinguishing media**  
None

**5.2. Special hazards arising from the substance or mixture**

**Special hazard**  
May form explosive mixtures with air.

**Hazardous combustion products**  
Carbon dioxide (CO<sub>2</sub>), Carbon monoxide (CO)

**5.3. Advice for firefighters**

**Special protective equipment for firefighters**  
None

**SECTION 6: Accidental release measures**

**6.1. Personal precautions, protective equipment and emergency procedures**

Avoid breathing dust. Avoid contact with skin, eyes and clothing.

**6.2. Environmental precautions**

Keep out of waterways.

**6.3. Methods and material for containment and cleaning up**

Clean up promptly by scoop or vacuum. If a vacuum cleaner is used, be sure to use a model with dust explosion safety measures. May form explosive mixtures with air.

**6.4. Reference to other sections**

## SECTION 7: Handling and storage

Toner for electrophotographic machines. Obtain special instructions before use.

## SECTION 8: Exposure controls/personal protection

|                               |                                |
|-------------------------------|--------------------------------|
| <b>Eye/face protection</b>    | Not required under normal use. |
| <b>Skin protection</b>        | Not required under normal use. |
| <b>Respiratory protection</b> | Not required under normal use. |
| <b>Thermal hazards</b>        | Not applicable                 |

## SECTION 9: Physical and chemical properties

No data available

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

None

### 10.2. Chemical stability

Stable

### 10.3. Possibility of hazardous reactions

None

### 10.4. Conditions to avoid

None

### 10.5. Incompatible materials

Acids, Bases, Oxidizing agents, Reducing agents.

### 10.6. Hazardous decomposition products

Carbon dioxide (CO<sub>2</sub>), Carbon monoxide (CO)

## SECTION 11: Toxicological information

### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

|                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|-----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Acute toxicity                    | LD50 > 2000 mg/kg (Ingestion)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| Skin corrosion/irritation         | Not classified based on the classification criteria under UN GHS (OECD Guideline)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Serious eye damage/eye irritation | Not classified based on the classification criteria under UN GHS (OECD Guideline)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Sensitization                     | Not classified based on the classification criteria under UN GHS (OECD Guideline)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Germ cell mutagenicity            | Ames Test (S. typhimurium): Negative                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| Reproductive toxicity             | No data available                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| STOT - single exposure            | No data available                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| STOT - repeated exposure          | Muhle et al. reported pulmonary response upon chronic inhalation exposure in rats to a toner enriched in respirable-sized particles compared to commercial toner. No pulmonary change was found at 1 mg/m <sup>3</sup> which is most relevant to potential human exposure. A minimal to mild degree of fibrosis was noted in 22% of the animals at 4 mg/m <sup>3</sup> , and a mild to moderate degree of fibrosis was observed in 92% of the animals at 16 mg/m <sup>3</sup> . These findings are attributed to "lung overloading", a generic response to excessive amounts of any dust retained in the lung for a prolonged interval. |
| Aspiration hazard                 | No data available                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

### 11.2. Information on other hazards

No data available

## SECTION 12: Ecological information

### 12.1. Toxicity

#### **Ecotoxicity effects**

Fish, 96h LC50 > 100 mg/l

Crustaceans, 48h EC50 > 100 mg/l

Algae, ErC50(0-72h) > 100 mg/l

### 12.2. Persistence and degradability

No data available

### 12.3. Bioaccumulative potential

No data available

### 12.4. Mobility in soil

No data available

### 12.5. Results of PBT and vPvB assessment

This preparation contains no substance considered to be persistent, bioaccumulating nor toxic (PBT).

This preparation contains no substance considered to be very persistent nor very bioaccumulating (vPvB).

### 12.6. Endocrine disrupting properties

No data available

### 12.7. Other adverse effects

No data available

## SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

DO NOT put toner or a toner container into fire. Heated toner may cause severe burns. DO NOT dispose of a toner container in a plastic crusher. Use a facility with dust explosion prevention measures. Finely dispersed particles form explosive mixtures with air. Dispose of in accordance with local regulations.

## SECTION 14: Transport information

|                                            |                                                                                                              |
|--------------------------------------------|--------------------------------------------------------------------------------------------------------------|
| <u>14.1. UN number or ID number</u>        | 2807                                                                                                         |
| <u>14.2. UN proper shipping name</u>       | Magnetized material                                                                                          |
| <u>14.3. Transport hazard class</u>        | 9                                                                                                            |
| <u>14.4. Packing group</u>                 | None                                                                                                         |
| <u>14.5. Environmental hazards</u>         | Not classified as environmentally hazardous under UN Model Regulations and marine pollutant under IMDG Code. |
| <u>14.6. Special precautions for users</u> | 97 or more of these products shipped together, by air, are regulated as magnetized material.                 |

**14.7. Maritime transport in bulk according to IMO instruments** Not applicable

## SECTION 15: Regulatory information

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

|                                 |                                                                                                                                                                                           |
|---------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (EC) No 1907/2006 Authorisation | Not regulated                                                                                                                                                                             |
| (EC) No 1907/2006 Restriction   | The synthetic polymer microparticles supplied are subject to conditions laid down by entry 78 of Annex XVII to Regulation (EC) No 1907/2006 of the European Parliament and of the Council |
| (EU) 2024/590                   | Not regulated                                                                                                                                                                             |
| (EU) 2019/1021                  | Not regulated                                                                                                                                                                             |
| (EU) No 649/2012                | Not regulated                                                                                                                                                                             |
| Other information               | None                                                                                                                                                                                      |

### 15.2. Chemical safety assessment

None

## SECTION 16: Other information

### Full text of H-statements referred to under SECTION 2 and 3

H373 - May cause damage to organs through prolonged or repeated exposure if inhaled

The data in SECTION 9, 11 and 12 of this SDS are based on the test results of this product, or estimates based on the data of similar product or the ingredients of this product.

### Key literature references and sources for data

- World Health Organization International Agency for Research on Cancer, IARC Monographs on the Evaluation on the Carcinogenic Risk of Chemicals to Humans
