

SECURE PROFILE MANAGEMENT

Secure Profile Management delivers comprehensive business security, integrating into your printers and multifunctional device fleet's IT security strategy to minimise cybersecurity vulnerabilities.

BUSINESS BENEFITS

- Common protection across your entire Canon fleet
- Minimise the risk of information leaks with secured print and scan infrastructure
- Greater visibility of fleet operations and the ability to identify required improvements, firmware updates and replacement of legacy equipment
- Maintain optimal device performance to prevent security related issues and improve productivity
- Reduce business disruption with proactive device monitoring and incident resolution
- IT resources freed up to focus on core business

POTENTIAL THREATS TO YOUR BUSINESS

- Your printers and multifunctional devices store and process confidential data, such as financial reports and other sensitive information
- Your devices are connected to the network, which can expose them to potential attacks
- Printers and multifunctional device security settings not monitored or managed

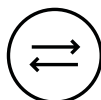

KEY FEATURES

Remote monitoring and resolution service of printers and multifunctional device security settings

Automated alerts to the Canon Service Desk in event of unexpected device Profile changes

Device Profiles restored promptly

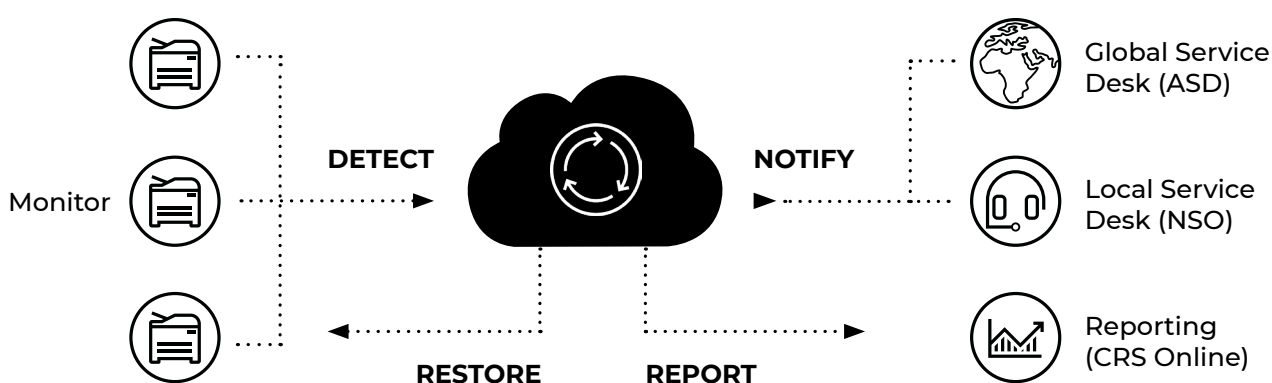

Online reporting tool for a dashboard of secured status

SECURE PROFILE MANAGEMENT

Secure Profile Management (SPM) is a remote device settings monitoring & remediation service.

The device settings parameters agreed with the Customer are monitored through profiles and in the event of any detected changes, restored to their pre-agreed configuration.

WHY CANON?

Canon is imaging. We use that imaging to make a difference and enable change.

Change for our customers as they undertake Digital Transformation and work in new ways.

Change for wider society with our ongoing sustainability focus as part of our corporate heritage and culture.

Finally, we are changing as we invest in new markets, products and technologies, so we are here for the long term for the benefit of all – our customers, our people and the wider society.
