Media for decorating spaces
for social distancing

Canon

PRINTMEDIA WITH STOPPING POWER

Living in a 'social distancing' society requires us all to adapt. To support citizens, customers and employees in achieving this, every organisation is faced with the urgent task of fixing signage in public and work spaces.

Canon's wide range of media supports the various possibilities for enabling safer spaces. Through this media guide we aim to inspire and support you in the design of spaces and routings according to these new standards.

Categorised by application, you will find our most popular media for the most common printing techniques. All our media is tested and profiled for Canon printers, as well as many other manufacturer's devices. They can be ordered directly from the Canon Imaging Supplies team or our webshop.

However, this is just a sample of our media offering. Our full range can be viewed online via the Canon Mediaguide, where you can search based on your device, find detailed information of our products and download print profiles.

If you need some guidance when choosing the right media for your application, our team are happy help.

Working together on a new reality.
Stronger together!

WHY PRINT WITH CANON'S MEDIA?

Media choice affects look and feel, print quality, durability, ease of installation and fitness for application purpose. Canon continuously develops, tests and supplies the most innovative media and consumables to support customers to diversify into new applications. Backed by a century of media knowledge, Canon offers a wide range of tested media, supported by expert advice, continuous quality control and prompt delivery.

Choose the right media for every application

CANON MEDIA OFFERING

1

Floor Graphics

For signing on floors there are two options: a vinyl floor sticker or a plain self-adhesive vinyl sticker in combination with a floor laminate. Both options are anti-slip. Most qualities are suitable for indoor use for a period of several months, depending on the intensity of use. Exception is the IJM684, this quality is wear-resistant, scratch-resistant and even suitable for outdoor use.

2

Wall Graphics

Our selection of self-adhesive materials can be used for signing on walls, doors and screens. The media are suitable for short or medium term use and can be easily removed after use for up to one year. Various qualities also offer ease of application. You can also use a laminate for this, this also offers a piece of extra protection.

3

Window Graphics

Our self-adhesive materials for signing on windows, indoors and outdoors, are suitable for short or medium term use and can be used in a variety of applications, use up to one year easily removed. Various qualities also offer a lot of ease of application. You can also use a laminate for this, this also offers a piece of extra protection.

4

Posters and hanging cards

We offer a selection of print media that are ideally suited for the production of eye-catching posters and hanging cards. Our solutions fit on almost all printing platforms: digital laser printing, Crystalpoint, water-based, UV flat-bed, UV gel, (Eco)Solvent and Latex.

5

Roll-ups and separators

There is a wide variety of media that can be used for transparent or separative screens. The market has developed many creative solutions in a short time. Also roll-ups are a very flexible and effective solution for communicating important messages and particularly suitable for co-designing the work floor according to the Social Distancing guidelines. In addition to suitable print media you will also find banner systems for roll-ups.
