

MAKING WORKSPACE SUSTAINABILITY POSSIBLE

Discover print and document management
with less environmental impact

Canon

WHAT'S DRIVING SUSTAINABILITY?

Sustainability is core to Canon's ethos of Kyosei – living and working together for the common good.

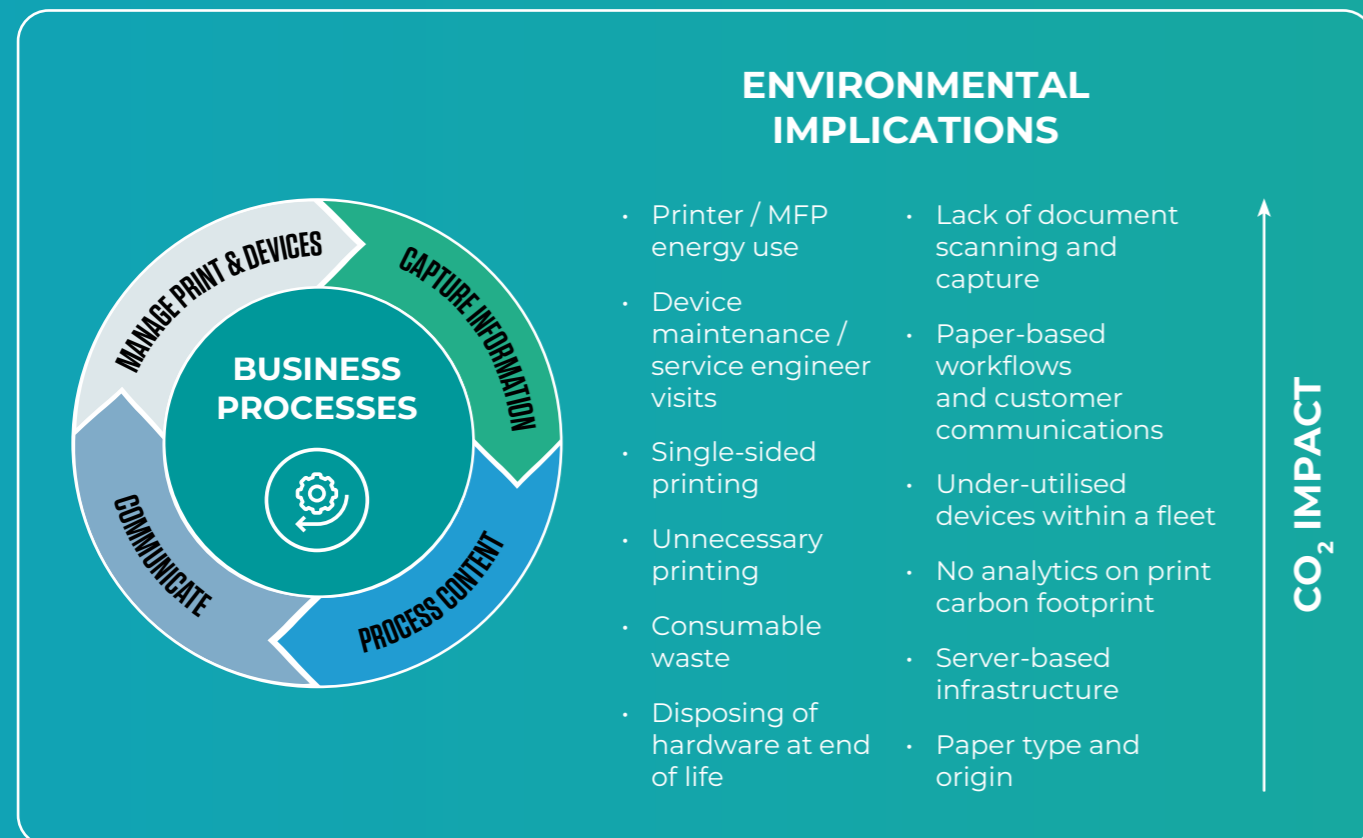

The European Union is aiming for net zero by 2050, shaping the regulatory framework all European businesses operate in.

Reducing CO₂ emissions and engaging with the circular economy is key:

- Sustainability topics such as carbon footprints of products and recycling are high on the agenda of IT managers
- The reduction of environmental impacts of print infrastructure is also high on their agenda

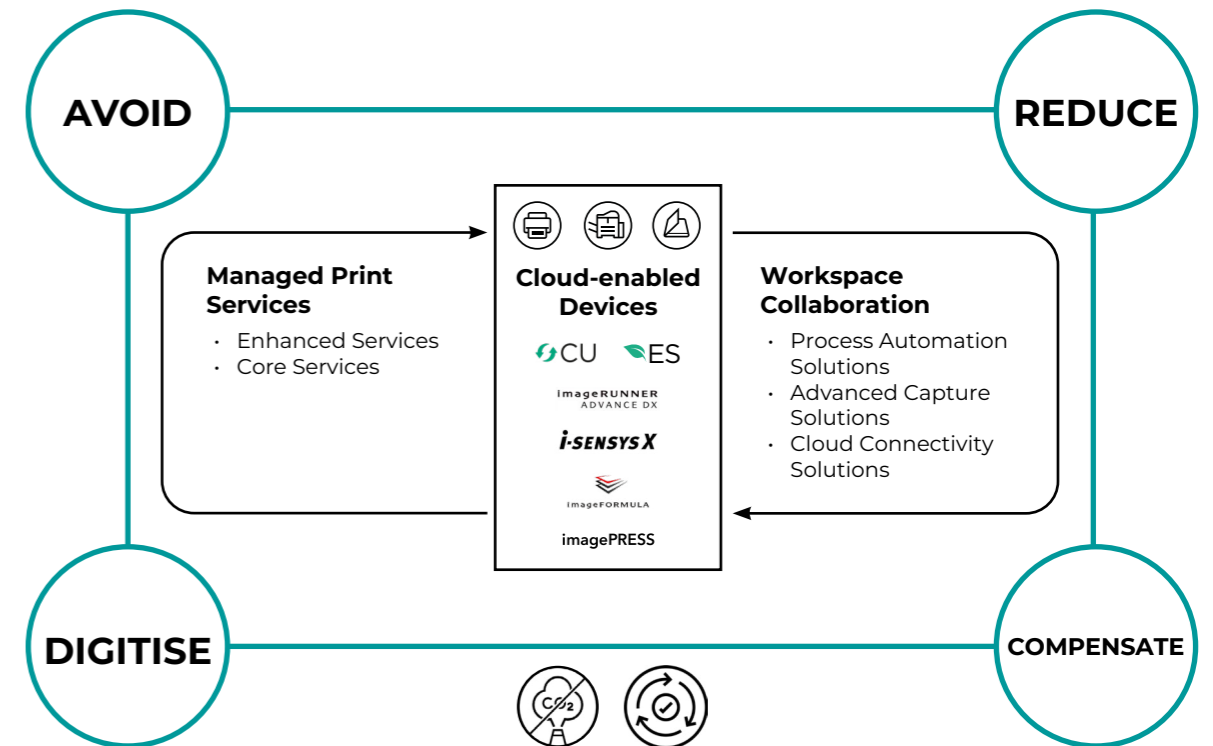

There are more opportunities to buy into the circular economy, as manufacturers increasingly offer “factory approved” refurbished or remanufactured products.

Sustainability Challenges In The Document Lifecycle:

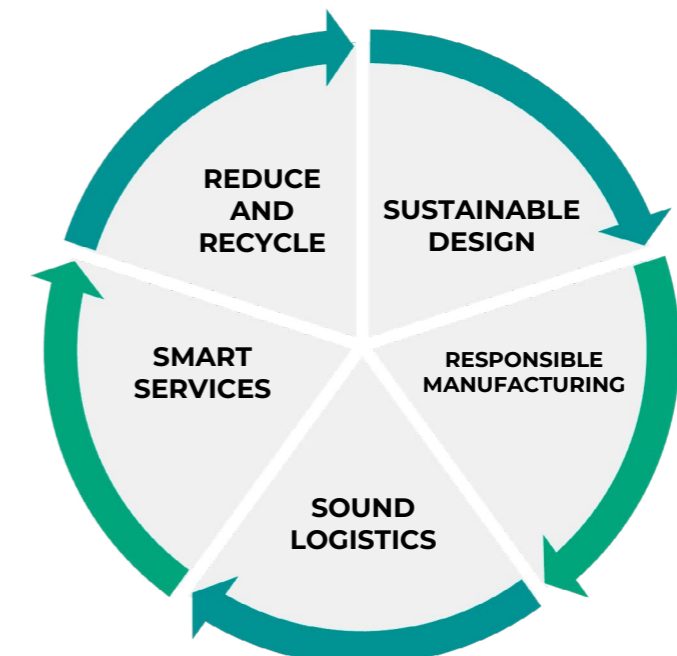

IMPROVING WORKSPACE SUSTAINABILITY WITH CANON

How we help you...

What we do on our side...

4 STEPS TO A LOWER ENVIRONMENTAL IMPACT

AVOID

-  **SiteAudit**
Assess your print infrastructure impact.
-  **Energy Efficient Devices**
Class leading quality and energy efficient hardware.

DIGITISE

-  **Capture and Process Solutions**
Software to help you 'go digital'.

REDUCE

-  **uniFLOW Online**
Control print usage and behaviour.
-  **Smart Devices**
Printers and scanners for the 'less paper' office.

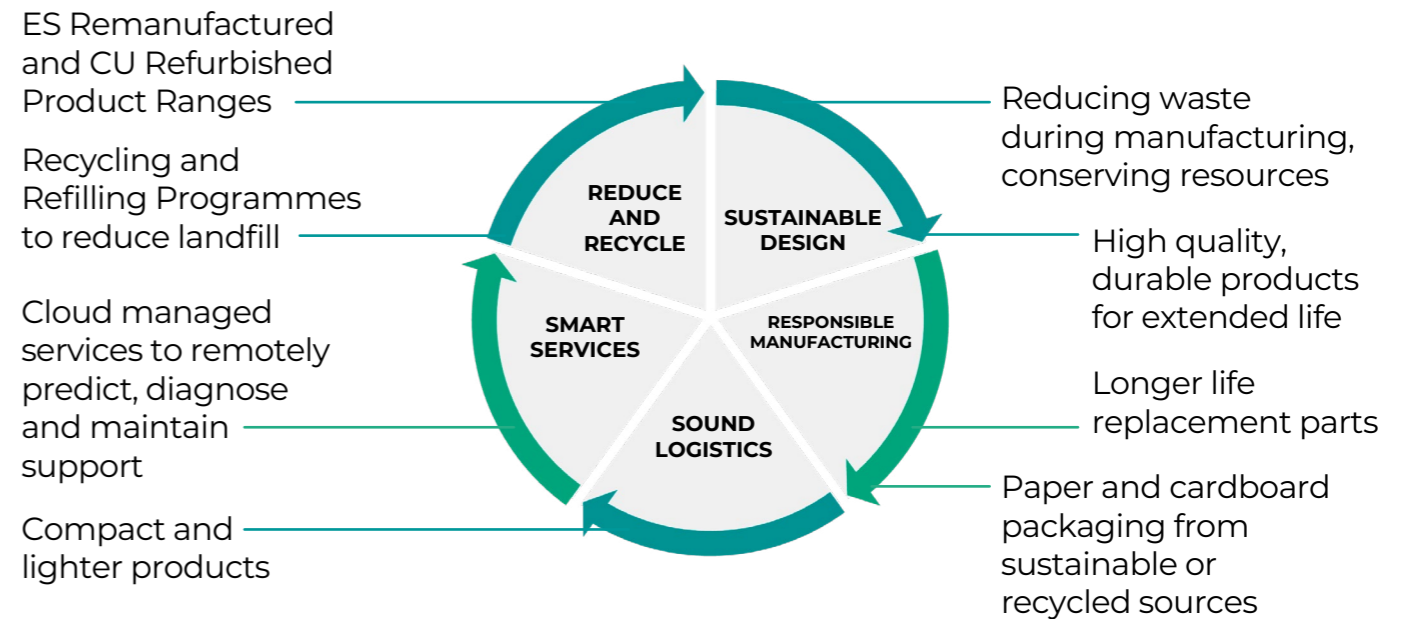

COMPENSATE

-  **Responsibly sourced media**
All Canon branded cut sheet A3 and A4 paper is deforestation free
-  **Climate Project Contribution Service**
Compensate for any unavoidable print related CO₂ emissions.

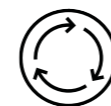

CANON AND THE CIRCULAR ECONOMY

Our approach to the circular economy touches on every stage of the product lifecycle. From remanufacturing and refurbishing devices, to toner and ink recycling, we engineer the circular economy into our products and solutions from the beginning.

YOUR SUSTAINABILITY BENEFITS WITH CANON

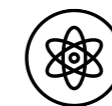

Enhance Document Sustainability

Reduce the environmental impact of your print and document management infrastructure.

Environmental Compliance

Demonstrate and maintain regulatory compliance with the changing legislation concerning print and corporate sustainability.

Innovate Your Workspace

Access a cutting-edge range of products, solutions and services to help you reduce your workspace CO₂ impact, while also boosting productivity and compliance.

Partner With A Leader

Canon is a recognised industry leader when it comes to sustainability, with many certified circular economy practices.

WHY CANON?

Experts In Document CO₂ Reduction

We provide award-winning technology and services to help you reduce the impact of print and document management. Our uniFLOW Online solution won BLI's Outstanding Cloud Output Management System Pick award for 2023.

Circular Economy Champion

With a decade's expertise in remanufacturing, we are able to reuse resources from our portfolio, creating as-new devices without losing performance. We won the BLI award for Most Reliable A3 Brand 2022 – 2024 too, so unnecessary service calls are avoided.

Certified Sustainable Practices

Most of Canon's products have been awarded with the Blue Angel ecolabel from the German Federal Government. The proportion of products offered by Canon EMEA that have received the Blue Angel Certification is 88% in 2022.

As of 2022, ISO 14001 consolidated certification covers Canon Inc. as well as 120 Group companies in 40 countries (564 operational sites) and regions around the world.

For 2023, Canon has been awarded an A score for climate change by CDP, the third time we have been included on their highest-ranking A list and placing us in the top 2% of companies assessed in this category. The CDP is an international environmental non-profit organisation which evaluates major companies and organisations worldwide on their efforts to tackle environmental issues.

Recognised Sustainability Leader

We have been positioned as a Leader by Quocirca in its Print Security Landscape 2023, and by IDC MarketScape in its Worldwide Security Solutions and Services Hardcopy 2022 – 2023 Vendor Assessment. We also won BLI's Most Energy Efficient Laser A4 Brand Award 2023 - 2025 for our Laser A4 portfolio.

Kyosei Corporate Philosophy

As mentioned, our Kyosei philosophy – living and working for the common good – drives our vision for sustainability. We're also part of the Responsible Business Alliance (RBA), so we ensure ethical and environmental responsibility for our supply chain.

NEXT STEPS

Wherever you are on your sustainability journey,
we're here for you.
